

# SAFETY DATA SHEET

## Section 1. Identification

Product Name:	<a href="#">Tris(dimethylamino)borane</a>
Product Type:	Liquid
CAS Number:	4375-83-1
Product Number:	B5831
Product Manufacturer:	Ereztech LLC 11555 Medlock Bridge Road, Suite 100 Johns Creek, GA 30097
Product Information:	(888) 658-1221
<u>In Case of an Emergency:</u>	CHEMTREC: 1-800-424-9300 (USA); +1 703-527-3887 (International); CCN836180 *** Contact manufacturer for all non-emergency calls.

## Section 2. Hazards Identification

### Emergency Overview

Appearance/Odor:	Colorless liquid, odor not determined.
Classification:	FLAMMABLE LIQUIDS – Category 2, H225 SKIN CORROSION/IRRITATION – Category 2, H315 SERIOUS EYE DAMAGE/EYE IRRITATION – Category 2A, H319 SPECIFIC TARGET ORGAN TOXICITY, SINGLE EXPOSURE; Respiratory Tract Irritation – Category 3, H335

### GHS Label Elements

Signal Word:	DANGER
Hazard Statements:	H225: Highly flammable liquid and vapor. H315: Causes skin irritation. H319: Causes serious eye irritation. H335: May cause respiratory irritation.

### Hazard Pictograms:

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 2. Hazards Identification

#### Precautionary Statements

##### **Prevention:**

P210: Keep away from heat/sparks/open flames/hot surfaces. – No smoking.  
P233: Keep container tightly closed.  
P240: Ground/Bond container and receiving equipment.  
P241: Use explosion-proof electrical/ventilating/lighting equipment.  
P242: Use only non-sparking tools.  
P243: Take precautionary measures against static discharge.  
P261: Avoid breathing sprays/mists/fumes/gases/vapors.  
P264: Wash skin thoroughly after handling.  
P271: Use only outdoors or in a well-ventilated area.  
P280: Wear protective gloves/ protective clothing/ eye protection/ face protection.

##### **Response:**

P302 + P352: IF ON SKIN: Wash with plenty of soap and water.  
P303 + P361 + P353: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.  
P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing.  
P304 + P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.  
P312: Call a POISON CENTER or doctor/physician if you feel unwell.  
P332 + P313: If skin irritation occurs: Get medical advice/attention.  
P337 + P313: If eye irritation persists: Get medical advice/attention.

P362: Take off contaminated clothing and wash before reuse.  
P370 + P378: In case of fire: Use carbon dioxide or dry chemical for extinction.

##### **Storage:**

P403 + P233 + P235: Store in a well ventilated place. Keep container tightly closed. Keep cool.

P405: Store locked up.

##### **Disposal:**

P501: Dispose of contents/ container to an approved waste disposal plant.

##### **OSHA/HCS Status:**

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

##### **Hazards Not Otherwise Classified (HNOC):**

None identified.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 3. Composition/Information on Ingredients

#### Substances

Synonyms	: TDMAB; (Me <sub>2</sub> N) <sub>3</sub> B.
Formula	: C <sub>6</sub> H <sub>18</sub> BN <sub>3</sub>
Molecular Weight	: 143.04 g/mol.
CAS-No.	: 4375-83-1

Ingredient Name	%	CAS Number
<a href="#">Tris(dimethylamino)borane</a>	> 98.5	4375-83-1

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First Aid Measures

#### Description of Necessary First Aid Measures

<b>General Advice:</b>	Move out of dangerous area. Call a POISON CENTER or doctor/physician immediately if symptoms develop or if you feel unwell. Show this safety data sheet to the doctor in attendance.
<b>Eye Contact:</b>	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue rinsing. Seek medical attention if eye irritation develops and persists.
<b>Skin Contact:</b>	Take off contaminated clothing and shoes immediately. Wash off contaminated skin with soap and plenty of water. Seek medical attention if irritation develops and persists, if symptoms develop or if you feel unwell.
<b>Inhalation:</b>	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Call a physician or POISON CONTROL CENTER if symptoms develop or if you feel unwell.
<b>Ingestion:</b>	Rinse mouth. Do NOT induce vomiting. Remove dentures if any. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Call a physician or POISON CONTROL CENTER if symptoms develop or if you feel unwell.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 4. First Aid Measures

#### Most Important Symptoms/Effects, Acute and Delayed Potential Acute Health Effects

- Eye Contact:** Symptoms may include stinging, tearing, redness, swelling and blurred vision.
- Inhalation:** Product may be irritating to respiratory system. Symptoms may include coughing, sneezing with phlegm production, sore throat, nausea, headache, vomiting.
- Skin Contact:** Symptoms may include an itching or burning sensation, reddening, swelling and blistering with tissue necrosis.
- Ingestion:** Product may be expected to be irritating to mucous membranes. Symptoms may include cramping, localized pain, headache, nausea and vomiting.

#### Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

- Notes to Physician:** Treat symptomatically.
- Specific Treatments:** No specific treatment.
- Protection of First Responders:** No action taken shall be taken involving any personal risk without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See Toxicological Information (Section 11)

### Section 5. Fire Fighting Measures

- General Hazards:** None identified.
- Suitable Extinguishing Media:** Use alcohol resistant foam, dry chemical or carbon dioxide (CO<sub>2</sub>).
- Unsuitable Extinguishing Media:** Do not use a water jet as it may spread the fire.
- Unusual Fire and Explosion Hazards:** Vapor/air mixtures are explosive above flash point. Product runoff to sewer may create a fire or explosion hazard. Vapors/gases released under fire conditions are heavier than air and may spread long distances along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to an ignition source and flashback. Containers may explode when heated.
- Product of Combustion:** Decomposition products may include carbon oxides (CO<sub>x</sub>), nitrogen oxides (NO<sub>x</sub>) and oxides of boron. Irritating fumes and organic acid vapors may be generated during exposure to elevated temperatures or open flame.
- Protection of Firefighters:** Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Avoid contact with skin or eyes. Avoid the formation and inhalation of sprays, mists, vapors and gases.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 5. Fire Fighting Measures

#### Protection of Firefighters (cont.):

Eliminate all local and distant ignition sources. Move containers from fire area if process can be accomplished without risk to firefighters. To reduce the possibility of explosion, use a water spray or fog to reduce direct vapors and to cool unopened containers. Do not cut, grind, drill or weld on or near product containers (even empty) of this product because an explosion may result.

Fire-fighters should wear appropriate protection equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode.

### Section 6. Accidental Release Measures

#### Personal Precautions, Protective Equipment and Emergency Procedures

##### For Non-Emergency Personnel:

No action shall be taken involving any personal risk or without suitable training. Remove all sources of ignition – NO SMOKING. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid the formation and inhalation of sprays, mists, gases and vapors. Provide adequate ventilation. Wear respiratory protection. Put on appropriate personal protective equipment.

##### For Emergency Responders:

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency Personnel".

##### Environmental Precautions:

Do not allow dispersal of spilled material and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Methods for Containment

##### General:

Eliminate all local and distant ignition sources. Move containers from spill area if safe to do so. Use spark-proof tools and explosion-proof equipment.

##### Small Spill:

Contain and collect spillage with a dry, non-combustible absorbent material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in dry, sealed container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 6. Accidental Release Measures

#### Large Spill:

Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with a dry, non-combustible absorbent material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in dry, sealed container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.

Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and Storage

#### Precautions:

Product is air and moisture sensitive. Handle under an inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Avoid contact with skin, eyes and clothing. Avoid the formation and inhalation of sprays, mists, vapors and gases. Do not ingest. Ensure adequate ventilation. Keep away from all sources of ignition – NO SMOKING. Take measures to avoid buildup of electrostatic charge. All equipment used must be grounded. Use only spark-proof tools and explosion-proof equipment.

#### Protective Measures:

Put on appropriate personal protective equipment (see Section 8). Keep in the original container kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

#### General Occupational Hygiene:

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

#### Safe Storage Conditions:

Product is air and moisture sensitive. Store under an inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Store refrigerated at 2 – 8 °C. Keep away from air, moisture/water, heat, sparks and open flames. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (strong oxidizing agents, air and moisture) and food and drink. Keep container tightly closed and sealed until ready for use. Store locked up.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 8. Exposure Controls/Personal Protection

#### Introductory Remarks:

These recommendations provide general guidance for handling this product. Because work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and conduct regular repairs. Waste from these procedures should be handled in accordance with Section 13.

#### Occupational Exposure Limits:

Product contains no substances with occupational exposure limit values.

#### Engineering Controls:

Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Provide an eyewash/shower station.

#### Environmental Exposure Controls:

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### Individual Protection Measures

##### Hygiene Measures:

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Remove all soiled and contaminated clothing immediately. Do not inhale sprays, mists, vapors or gases. Avoid contact with eyes and skin. Ensure that eyewash stations and safety showers are close to the workstation location.

##### Eye/Face Protection:

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to sprays, mists or vapors. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles, faceshield (8-inch minimum). Refer to 29 CFR 1910.133, ANSI Z87.1, or European Standard EN166.

##### Skin Protection

##### Hand Protection:

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 8. Exposure Controls/Personal Protection

#### Hand Protection (cont.):

It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves.

Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. For full contact, wear gloves made from Neoprene or nitrile rubber.

#### Other Skin Protection:

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### Respiratory Protection:

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

### Section 9. Physical and Chemical Properties

<b>Physical State:</b>	Liquid.
<b>Color:</b>	Colorless.
<b>Odor:</b>	No data available.
<b>Odor Threshold:</b>	No data available.
<b>pH:</b>	No data available.
<b>Melting Point:</b>	-16 °C (3 °F).
<b>Boiling Point:</b>	147 - 148 °C (297 - 298 °F).
<b>Flash Point:</b>	-21 °C (-6 °F) – closed cup.
<b>Auto-ignition temperature:</b>	No data available.
<b>Relative Density:</b>	.817 g/cm <sup>3</sup> @ 25 °C (77 °F).
<b>Vapor Pressure:</b>	No data available.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 9. Physical and Chemical Properties

**Vapor Density:** No data available.  
**Water Solubility:** No data available.

### Section 10. Stability and Reactivity

**Reactivity:** Product vapors may form explosive mixture with air.

**Chemical Stability:** This product is stable when stored under a dry, inert atmosphere and away from heat. Nitrogen containing less than 5 ppm each moisture and air and a temperature range of 2 – 8 °C is recommended.

**Conditions to Avoid:** Exposure to air, water/moisture, sources of ignition (heat, flames, sparks, electrostatic discharge), extremes of temperature and direct sunlight.

**Incompatible Materials:** Air, moisture/water and strong oxidizing agents.

**Hazardous Decomposition Products:** Carbon oxides (CO<sub>x</sub>), nitrogen oxides (NO<sub>x</sub>) and oxides of boron. Irritating fumes and organic acid vapors may be generated during exposure to elevated temperatures or open flame.

**Possibility of Hazardous Reactions:** Under normal conditions of storage and use noted above, hazardous reactions will not occur. Hazardous reactions or instability may occur under certain conditions of storage or use.

### Section 11. Toxicological Information

#### Information on Toxicological Effects

**Acute Toxicity** : No specific data available.

**Irritation/Corrosion** : Product may be expected to cause skin and eye irritation.

**Sensitization** : No specific data available.

**Germ Cell Mutagenicity** : No specific data available.

**Carcinogenity**

**IARC** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

**ACGIH** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by ACGIH.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 11. Toxicological Information

#### Carcinogenity (cont.)

- NTP** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by NTP.
- OSHA** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA.
- Reproductive Toxicity** : This product is not expected to cause reproductive or developmental effects.
- Teratogenicity** : No specific data available.
- Specific Target Organ Toxicity (Single Exposure)** : May cause respiratory irritation.
- Specific Target Organ Toxicity (Repeated Exposure)** : No specific data available.
- Aspiration Hazard** : No specific data available.
- Information on the Likely Routes of Exposure** : No specific data available.
- Additional Information (cont.)** : To the best of our knowledge, the chemical, physical, and toxicological properties of this compound have not been thoroughly investigated.

### Section 12. Ecological Information

#### Numerical Measures of Toxicity

- Aquatic Toxicity** : No specific data available.
- Persistence and Degradability** : No specific data available.
- Biodegradability** : No specific data available.
- Bioaccumulative Potential** : No specific data available.
- Mobility in soil** : No specific data available.
- Other Adverse Effects** : No specific data available. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 13. Disposal Considerations

#### Waste Treatment Methods

##### **Product**

Dispose of in accordance with local, state, and federal regulations. Refer to 40 CFR 260-299 for complete waste disposal regulations. Consult your local, state, or federal agency before disposing of any chemicals.

##### **Contaminated packaging**

Empty containers retain product residue (liquids and/or vapors) and can be dangerous. Keep product and container away from heat and all ignition sources. Dispose of in the same manner as unused product.

### Section 14. Transport Information

	<b>DOT</b>	<b>IMDG</b>	<b>IATA</b>
UN Number	UN1993	UN1993	UN1993
UN Proper Shipping Name	Flammable liquids, n.o.s. (Tris(dimethylamino) borane)	FLAMMABLE LIQUIDS, N.O.S. (Tris(dimethylamino) borane)	Flammable liquids, n.o.s. (Tris(dimethylamino) borane)
Transport Hazard Classes	3	3	3
Packing Group	II	II	II
Environmental Hazards	-	-	-
Additional Information	-	EMS No: F-E, S-E	-

##### **Special Precautions for User**

: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

##### **Transporting in Bulk According to Annex II of MARPOL 73/78 and the IBC Code**

: Not applicable.

### Section 15. Regulatory Information

#### **TSCA (Toxic Substance Control Act):**

This product is not listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory). Use of this product is restricted to research and development only. This product must be used under the supervision of a technically qualified individual as defined by the TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.

#### **SARA 302 Components**

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

# Tris(dimethylamino)borane

## Safety Data Sheet

### Section 15. Regulatory Information

#### SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

#### SARA 311/312 Hazards

Fire Hazard (Flammable Liquid), Acute Health Hazard (Skin Irritation; Serious Eye Irritation; STOT – Single Exposure: Respiratory Irritation).

#### Massachusetts Right to Know Components

No components are subject to Massachusetts Right to Know Act.

#### Pennsylvania Right to Know Components

No components are subject to Pennsylvania Right to Know Act.

#### New Jersey Right to Know Components

No components are subject to New Jersey Right to Know Act.

#### California Proposition 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

### Section 16. Other Information

#### National Fire Protection Association (U.S.A.)
