**EREZTECH LLC**

# SAFETY DATA SHEET

## Section 1. Identification

**Product Name:** [Bis\(cyclopentadienyl\)molybdenum dihydride](#)  
**Product Type:** Liquid  
**CAS Number:** 1291-40-3  
**Product Number:** MO1403  
**Product Manufacturer:** Ereztech LLC  
11555 Medlock Bridge Road, Suite 100  
Johns Creek, GA 30097  
**Product Information:** (888) 658-1221  
**In Case of an Emergency:** CHEMTREC: 1-800-424-9300 (USA);  
+1 703-527-3887 (International); CCN836180  
\*\*\* Contact manufacturer for all non-emergency calls.

## Section 2. Hazards Identification

**Appearance/Odor:** Yellow to green liquid, odor not determined.  
**Classification:** SKIN CORROSION/IRRITATION - Category 2, H315  
SERIOUS EYE DAMAGE/EYE IRRITATION - Category 2A, H319  
SPECIFIC ORGAN TOXICITY, SINGLE EXPOSURE; RESPIRATORY  
TRACT IRRITATION - Category 3, H335

### GHS Label Elements

**Signal Word:** DANGER  
**Hazard Statements:** H315: Causes skin irritation.  
H319: Causes serious eye irritation.  
H335: May cause respiratory irritation.

### **Hazard Pictograms:**

### Precautionary Statements

**Prevention:** P261: Avoid breathing sprays, mists, vapors and gases.  
P264 + P265: Wash hands and skin thoroughly after handling. Do not touch eyes.  
P271: Use only outdoors or with adequate ventilation.

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 2. Hazards Identification

<b>Prevention (cont.):</b>	P280: Wear protective gloves/ protective clothing/ eye protection/ face protection.
<b>Response:</b>	P302 + P352: IF ON SKIN: Wash with plenty of water. P304 + P340: IF INHALED: Remove victim to fresh air and keep comfortable for breathing. P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P319: Get medical help if you feel unwell. P332 + P317: If skin irritation occurs: Get medical help. P337 + P317: If eye irritation persists: Get medical help. P362 + P364: Take off contaminated clothing and wash it before reuse.
<b>Storage:</b>	P403 + P233: Store in a well ventilated place. Keep container tightly closed. P405: Store locked up.
<b>Disposal:</b>	P501: Dispose of contents/container in accordance with national, federal, state and local regulations.
<b>OSHA/HCS status:</b>	This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
<b>Hazards Not Otherwise Classified (HNOC):</b>	Product may be harmful if inhaled.

### Section 3. Composition/Information on Ingredients

<b>Synonyms</b>	<b>BRIDGING</b> : Molybdocene dihydride; Bis( $\eta^5$ -cyclopentadienyl)molybdenum(IV) hydride; Molybdenum bis( $\eta^5$ -2,3-cyclopentadien-1-yl)dihydro-; ( $\eta^5$ -Cp) <sub>2</sub> MoH <sub>2</sub> ; Molybdenum, bis( $\eta^5$ -2,4-cyclopentadien-1-yl)dihydro-.	<b>GAPS</b>
<b>Molecular Formula</b>	: C <sub>10</sub> H <sub>12</sub> Mo	
<b>Molecular Weight</b>	: 312.30 g/mol	

Ingredient Name	%	CAS Number
<a href="#">Bis(cyclopentadienyl)molybdenum dihydride</a>	> 97.5	1291-40-3

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 4. First Aid Measures

#### Description of Necessary First Aid Measures

- General Advice:** Move out of dangerous area. Get medical help if symptoms develop and persist or if you feel unwell. Show this safety data sheet to the doctor in attendance.
- Eye Contact:** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue rinsing. Get medical help if eye irritation develops and persists.
- Skin Contact:** Wash off contaminated skin with plenty of water. Get medical help if irritation develops and persists or if burns occur.
- Inhalation:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. If unconscious, place in recovery position and get medical help immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical help if symptoms develop and persist or if you feel unwell.
- Ingestion:** Rinse mouth. Do NOT induce vomiting. Remove dentures if any. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical help if symptoms develop and persist or if you feel unwell.

#### Most Important Symptoms/Effects, Acute And Delayed Potential Acute Health Effects

- Eye Contact:** Symptoms may include stinging, tearing, redness, swelling and blurred vision.
- Inhalation:** Product may be irritating to respiratory system. Symptoms may include coughing, sore throat, nausea, headache, vomiting.
- Skin Contact:** Symptoms may include burning sensation, itching, reddening and swelling of exposed skin.
- Ingestion:** Product may be irritating to mucous membranes. Symptoms may include cramping, localized pain, headache, nausea and vomiting.

#### Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

- Notes to Physician:** Treat symptomatically.
- Specific Treatments:** No specific treatment.
- Protection of First Responders:** No action taken shall be taken involving any personal risk without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See Toxicological Information (Section 11)

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 5. Fire Fighting Measures

<b>General Hazards:</b>	None identified.
<b>Suitable Extinguishing Media:</b>	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Water spray may be used to cool sealed containers.
<b>Unsuitable Extinguishing Media:</b>	None identified.
<b>Unusual Fire and Explosion Hazards:</b>	None identified.
<b>Product of Combustion:</b>	Decomposition products include carbon oxides (CO <sub>x</sub> ) and molybdenum oxides. Irritating fumes and organic acid vapors may be generated during exposure to elevated temperatures or open flame.
<b>Protection of Firefighters:</b>	<p>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Avoid contact with skin or eyes. Avoid the formation and inhalation of mists, sprays, vapors and gases.</p> <p>Fire-fighters should wear appropriate protection equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode.</p>

### Section 6. Accidental Release Measures

#### Personal Precautions, Protective Equipment and Emergency Procedures

<b>For Non-Emergency Personnel:</b>	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid the formation and inhalation of mists, sprays, vapors or gases. Provide adequate ventilation. Wear respiratory protection. Put on appropriate personal protective equipment.
<b>For Emergency Responders:</b>	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency Personnel".
<b>Environmental Precautions:</b>	Do not allow dispersal of spilled material and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 6. Accidental Release Measures

#### Methods for Containment

- General:** Move containers from spill area if safe to do so. Dispose of collected spillage in accordance with national, federal, state and local regulations. Contaminated absorbent material may pose the same hazard as the spilled product.
- Small Spill:** Collect spillage with an inert, absorbent material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in sealed container for disposal.
- Large Spill:** Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with an inert, absorbent material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in dry, sealed container for disposal.
- Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and Storage

- Precautions:** Product is air sensitive; handle under a dry, inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Keep container tightly sealed. Avoid contact with skin, eyes and clothing. Avoid the formation and inhalation of sprays, mists, vapors and gases. Do not ingest. Avoid prolonged exposure. Ensure adequate ventilation.
- Protective Measures:** Put on appropriate personal protective equipment (see Section 8). Keep in the original container kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- General Occupational Hygiene:** Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Safe Storage Conditions:** Product is air sensitive; store under an inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Store in original container protected from direct sunlight in a dry and well-ventilated area, away from incompatible materials noted above and food and drink. Keep container tightly closed and sealed until ready for use. Store locked up.

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 8. Exposure Controls/Personal Protection

#### Introductory Remarks:

These recommendations provide general guidance for handling this product. Because work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and conduct regular repairs. Waste from these procedures should be handled in accordance with Section 13.

#### Occupational Exposure Limits:

Product contains no substances with occupational exposure limit values.

#### Engineering Controls:

Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Provide an eyewash/shower station.

#### Environmental Exposure Controls:

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### Individual Protection Measures

##### Hygiene Measures:

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Remove all soiled and contaminated clothing immediately. Avoid the inhalation of sprays, mists, vapors and gases. Avoid contact with eyes and skin. Ensure that eyewash stations and safety showers are close to the workstation location.

##### Eye/Face Protection:

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles, faceshield (8-inch minimum). Refer to 29 CFR 1910.133, ANSI Z87.1, or European Standard EN166.

##### Skin Protection

##### Hand Protection:

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties.

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 8. Exposure Controls/Personal Protection

#### Hand Protection (cont.):

It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves.

Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. For full contact, use Neoprene or nitrile rubber.

#### Other Skin Protection:

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### Respiratory Protection:

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

### Section 9. Physical and Chemical Properties

<b>Physical State:</b>	Liquid.
<b>Color:</b>	Yellow to green.
<b>Odor:</b>	No data available.
<b>Odor Threshold:</b>	No data available.
<b>pH:</b>	No data available.
<b>Melting Point:</b>	No data available.
<b>Boiling Point:</b>	No data available.
<b>Flash Point:</b>	No data available.
<b>Auto-ignition temperature:</b>	No data available.
<b>Specific Gravity:</b>	No data available.
<b>Vapor Pressure:</b>	No data available.

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 9. Physical and Chemical Properties

Vapor Density:	No data available.
Water Solubility:	No data available.
Evaporation Rate:	No data available.
Viscosity:	No data available.

### Section 10. Stability and Reactivity

Reactivity:	Air sensitive.
Chemical Stability:	This product is stable when stored under a dry, inert atmosphere and away from heat. Nitrogen containing less than 5 ppm each moisture and air is recommended.
Conditions to Avoid:	Exposure to air, extremes of temperature and direct sunlight.
Incompatible Materials:	Strong oxidizing agents.
Hazardous Decomposition Products:	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Hazardous decomposition products formed under fire conditions: irritating fumes, organic acid vapors, carbon oxides (CO <sub>x</sub> ) and molybdenum oxide fumes. In the event of a fire: see section 5. Hazardous decomposition products formed under fire conditions:
Possibility of Hazardous Reactions:	Under normal conditions of storage and use noted above, hazardous reactions will not occur. Hazardous reactions or instability may occur under certain conditions of storage or use.

### Section 11. Toxicological Information

#### Information on Toxicological Effects

Acute Toxicity	: No specific data available.
Irritation/Corrosion	: Product may cause skin irritation and serious eye irritation.
Sensitization	: No specific data available.
Germ Cell Mutagenicity	: No effects known.
<u>Carcinogenicity</u>	
IARC	: No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 11. Toxicological Information

#### Carcinogenity (cont.)

**ACGIH** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by ACGIH.

**NTP** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by NTP.

**OSHA** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA.

**Reproductive Toxicity** : This product is not expected to cause reproductive or developmental effects.

**Teratogenicity** : No specific data available.

**Specific Target Organ Toxicity (Single Exposure)** : Respiratory tract irritation.

**Specific Target Organ Toxicity (Repeated Exposure)** : No specific data available.

**Aspiration Hazard** : No specific data available.

**Information on the Likely Routes of Exposure** : Common routes of exposure: inhalation, dermal (failure to use skin protection), eye (failure to use safety eyewear). Less common: ingestion (failure to employ recommended hygiene measures (e.g. smoking or eating after handling product without washing hands or using hand protection)).

**Additional Information** : To the best of our knowledge, the chemical, physical and toxicological properties of this product have not been thoroughly investigated.

### Section 12. Ecological Information

#### Numerical Measures of Toxicity

**Toxicity to Fish** : No specific data available.

**Toxicity to Daphnia and Other Aquatic Invertebrates** : No specific data available.

**Toxicity to Algae** : No specific data available.

#### Persistence and Degradability

**Biodegradability** : No specific data available.

**Bioaccumulative Potential** : No specific data available.

**Mobility in Soil** : No specific data available.

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 12. Ecological Information

**Other Adverse Effects** : An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

### Section 13. Disposal Considerations

#### Waste Treatment Methods

**Product** Dispose of in accordance with local, state, and federal regulations. Refer to 40 CFR 260-299 for complete waste disposal regulations. Consult your local, state, or federal agency before disposing of any chemicals.

**Contaminated Packaging** Empty containers retain product residue (liquid and/or vapor) and can be dangerous. Dispose of as unused product.

### Section 14. Transport Information

	<b>DOT</b>	<b>IMDG</b>	<b>IATA</b>
UN Number	Not regulated.	Not regulated.	Not regulated.
UN Proper Shipping Name	-	-	-
Transport Hazard Classes	-	-	-
Packing Group	-	-	-
Environmental Hazards	-	-	-
Additional Information	-	-	-

**Special Precautions for User** : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transporting in Bulk According to Annex II of MARPOL 73/78 and the IBC Code** : Not applicable.

### Section 15. Regulatory Information

#### **TSCA (Toxic Substance Control Act):**

This product is not listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory). Use of this product is restricted to research and development only. This product must be used under the supervision of a technically qualified individual as defined by the TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.

#### **SARA 302 Components**

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

# Bis(cyclopentadienyl)molybdenum dihydride

## Safety Data Sheet

### Section 15. Regulatory Information

#### SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

#### SARA 311/312 Hazards

Acute Health Hazard (Skin Corrosion or Irritation; Serious eye damage or eye irritation; Specific target organ toxicity, single exposure: respiratory tract irritation).

#### Massachusetts Right to Know Components

No components are subject to Massachusetts Right to Know Act.

#### Pennsylvania Right to Know Components

No components are subject to Pennsylvania Right to Know Act.

#### New Jersey Right to Know Components

No components are subject to New Jersey Right to Know Act.

#### California Proposition 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

### Section 16. Other Information

#### National Fire Protection Association (U.S.A.)

Reprinted with permission from NFPA 704-2001, Identification of the Hazards of Materials for Emergency Response Copyright ©1997, National Fire Protection Association, Quincy, MA 02269. This reprinted material is not the complete and official position of the National Fire Protection Association, on the referenced subject which is represented only by the standard in its entirety. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactivity hazards of chemicals. The user is referred to certain limited number of chemicals with recommended classifications in NFPA 49 and NFPA 325, which would be used as a guideline only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.
