

SAFETY DATA SHEET

Section 1. Identification

| | |
|--|--|
| Product Name: | Methylcyclopentadienylmolybdenum tricarbonyl dimer |
| Product Type: | Solid |
| CAS Number: | 33056-03-0 |
| Product Number: | MO6030 |
| Recommended Use: | Laboratory chemicals, synthesis of substances. |
| Product Manufacturer: | Ereztech LLC 11555 Medlock Bridge Road, Suite 100 Johns Creek, GA 30097 |
| Product Information: | (888) 658-1221 |
| <u>In Case of an Emergency:</u> | CHEMTREC: 1-800-424-9300 (USA); +1 703-527-3887 (International); CCN836180 *** Contact manufacturer for all non-emergency calls. |

Section 2. Hazards Identification

| | |
|-------------------------|---|
| Appearance/Odor: | Burgundy crystalline powder, odor not determined. |
| Classification: | ACUTE TOXICITY, ORAL - Category 4, H302 ACUTE TOXICITY, DERMAL - Category 4, H312 ACUTE TOXICITY, INHALATION - Category 4, H332 |

GHS label elements

Hazard Pictograms:

| | |
|---------------------------|---|
| Signal Word: | WARNING |
| Hazard Statements: | H302: Harmful if swallowed. H312: Harmful in contact with skin. H332: Harmful if inhaled. |

Precautionary Statements

| | |
|--------------------|---|
| Prevention: | P261: Avoid breathing dusts, aerosols, vapors or gases. P264: Wash hands and skin thoroughly after handling. P270: Do not eat, drink or smoke when using this product. P271: Use only outdoors or in a well-ventilated area. |
|--------------------|---|

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 2. Hazards Identification

| | |
|---|---|
| Prevention (cont.): | P280: Wear protective gloves/ protective clothing/ eye protection/ face protection. |
| Response: | P301 + P330 + P331: IF SWALLOWED: Get medical help. P302 + P352: IF ON SKIN: Wash with plenty of water. P304 + P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing. P317: Get medical help. P330: Rinse mouth. P362 + P364: Take off contaminated clothing and wash it before reuse. |
| Storage: | No applicable statements. |
| Disposal: | P501: Dispose of contents/ container in accordance with local, state and federal regulations. |
| OSHA/HCS status: | This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). |
| Hazards Not Otherwise Classified [HNOC]: | None identified. |

Section 3. Composition/Information on Ingredients

| | |
|-------------------------|---|
| Synonyms | : Carbon monoxide methylcyclopentane molybdeniomolybdenum. |
| Formula | : C ₁₈ H ₆ O ₆ Mo ₂ |
| Molecular Weight | : 518.18 g/mol |

| Ingredient Name | % | CAS Number |
|--|------|------------|
| Methylcyclopentadienylmolybdenum tricarbonyl dimer | ≥ 97 | 33056-03-0 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First Aid Measures

| | |
|------------------------|---|
| General Advice: | Move out of dangerous area. Get medical help. Show this safety data sheet to the doctor in attendance. If unconscious, place in recovery position and get medical help immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Eye Contact: | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses after initial rinse period and continue rinsing for an additional 15 minutes. Keep eyes wide open during rinsing process. If eye irritation develops and persists, get medical help. |

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 4. First Aid Measures

- Skin Contact:** Remove all contaminated clothing and shoes. Wash off contaminated skin with plenty of water. In the event of complaints or symptoms, avoid further exposure. Get medical help.
- Inhalation:** Remove person to fresh air and keep comfortable for breathing. Rescuer should wear a mask or self-contained breathing apparatus if it is suspected that dusts, aerosols or fumes are still present. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical help.
- Ingestion:** Do NOT induce vomiting. Rinse mouth. Remove dentures if any. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Get medical help.

Most Important Symptoms/Effects, Acute and Delayed Potential Acute Health Effects

- Eye Contact:** Product may cause eye irritation. Symptoms may include watering, redness and blurred vision.
- Inhalation:** Product is harmful if inhaled and may cause respiratory tract irritation. Symptoms may include a burning sensation, coughing, wheezing, laryngitis, shortness of breath/ difficulty in breathing (dyspnea), blueness (cyanosis) of lips and skin, nausea, headaches, disorientation, general weakness and loss of consciousness.
- Skin Contact:** Product is harmful in contact with the skin and may cause skin irritation. Symptoms may include reddening of skin, a burning or itching sensation, shortness of breath/ difficulty in breathing (dyspnea), blueness (cyanosis) of lips and skin, nausea, headaches, disorientation, general weakness and loss of consciousness.
- Ingestion:** Product is harmful if ingested. Symptoms may include shortness of breath/ difficulty in breathing (dyspnea), blueness (cyanosis) of lips and skin, nausea, headaches, disorientation, general weakness and loss of consciousness.

Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

- Notes to Physician:** Treat symptomatically.
- Specific Treatments:** No specific treatment.
- Protection of First Responders:** No action taken shall be taken involving any personal risk without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See Toxicological Information (Section 11)

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 5. Fire Fighting Measures

| | |
|--|---|
| General Hazards: | None identified. |
| Suitable Extinguishing Media: | Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. |
| Unsuitable Extinguishing Media: | None identified. |
| Unusual Fire and Explosion Hazards: | None identified. |
| Product of Combustion: | Products of combustion include carbon monoxide, carbon dioxide and molybdenum oxide fumes. |
| Protection of Firefighters: | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Fire-fighters should wear appropriate protection equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode. |

Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

| | |
|-------------------------------------|--|
| For Non-Emergency Personnel: | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid the formation and inhalation of dusts and aerosols. Provide adequate ventilation. Wear respiratory protection. Put on appropriate personal protective equipment. |
| For Emergency Responders: | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency Personnel". |
| Environmental Precautions: | Do not allow dispersal of spilled material and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |

Methods for Containment

| | |
|-----------------|---|
| General: | Move containers from spill area if safe to do so. Dispose of collected spillage in accordance with national, federal, state and local regulations. Contaminated absorbent material may pose the same hazard as the spilled product. |
|-----------------|---|

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 6. Accidental Release Measures

- Small Spill:** Collect spillage with a dry binding material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in sealed container for disposal (see Section 13).
- Large Spill:** Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with a dry binding material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in sealed container for disposal (see Section 13).
- Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and Storage

- Precautions:** Avoid formation and inhalation of dusts and aerosols. Ensure adequate ventilation. Keep container tightly sealed. Avoid contact with skin, eyes and clothing. Do not ingest.
- Protective Measures:** Put on appropriate personal protective equipment (see Section 8). Keep in the original container kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- General Occupational Hygiene:** Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Safe Storage Conditions:** Store in original container protected from direct sunlight in a dry and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use.

Section 8. Exposure Controls/Personal Protection

- Introductory Remarks:** These recommendations provide general guidance for handling this product. Because work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and conduct regular repairs. Waste from these procedures should be handled in accordance with Section 13.

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 8. Exposure Controls/Personal Protection

| | |
|---|--|
| Occupational Exposure Limits: | Product contains no substances with occupational exposure limit values. |
| Engineering Controls: | Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Provide an eyewash/shower station. |
| Environmental Exposure Controls: | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |

Individual Protection Measures

| | |
|-----------------------------|---|
| Hygiene Measures: | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Remove all soiled and contaminated clothing immediately. Avoid the formation and inhalation of dusts, aerosols, vapors or gases. Avoid contact with eyes and skin. Do not ingest. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/Face Protection: | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to dusts, aerosols and gases. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles, faceshield (8-inch minimum). Refer to 29 CFR 1910.133, ANSI Z87.1, or European Standard EN166. |
| Skin Protection | |
| Hand Protection: | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves. |

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 8. Exposure Controls/Personal Protection

| | |
|---------------------------------|--|
| Hand Protection (cont.): | Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. For full contact, use Neoprene or nitrile rubber. |
| Other Skin Protection: | Appropriate footwear (closed toe) and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory Protection: | Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). |

Section 9. Physical and Chemical Properties

| | |
|-----------------------------------|-----------------------------|
| Physical State: | Solid (crystalline powder). |
| Color: | Burgundy (deep red). |
| Odor: | No data available. |
| Odor Threshold: | No data available. |
| pH: | No data available. |
| Melting Point: | 150 °C (302 °F). |
| Boiling Point: | No data available. |
| Flash Point: | Not applicable. |
| Auto-ignition temperature: | No data available. |
| Relative Density: | No data available. |
| Vapor Pressure: | No data available. |
| Vapor Density: | No data available. |
| Water Solubility: | No data available. |

Section 10. Stability and Reactivity

| | |
|--------------------|--------------------|
| Reactivity: | No data available. |
|--------------------|--------------------|

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 10. Stability and Reactivity

| | |
|--|---|
| Chemical Stability: | Stable under recommended storage conditions. |
| Conditions to Avoid: | None identified. |
| Incompatible Materials: | Strong oxidizing agents. |
| Hazardous Decomposition Products: | Hazardous decomposition products formed under fire conditions: carbon monoxide, carbon dioxide and molybdenum oxide fumes. Irritating fumes and organic acid vapors may be generated during exposure to elevated temperatures or open flame. In the event of a fire: see section 5. |
| Possibility of Hazardous Reactions: | Under normal conditions of storage and use, hazardous reactions will not occur. |

Section 11. Toxicological Information

Information on Toxicological Effects

| | |
|---|--|
| Acute Toxicity | : Product is harmful in contact with skin, if inhaled or ingested. |
| Irritation/Corrosion | : No specific data available. Product may cause irritation to eyes and exposed skin. |
| Sensitization | : No specific data available. |
| Germ Cell Mutagenicity | : No specific data available. |
| Carcinogenicity | |
| IARC | : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. |
| ACGIH | : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by ACGIH. |
| NTP | : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by NTP. |
| OSHA | : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA. |
| Reproductive Toxicity | : This product is not expected to cause reproductive or developmental effects. |
| Teratogenicity | : No specific data available. |
| Specific Target Organ Toxicity (Single Exposure) | : Product may cause respiratory tract irritation. |

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 11. Toxicological Information

| | |
|---|--|
| Specific Target Organ Toxicity (Repeated Exposure) | : No specific data available. |
| Aspiration Hazard | : No specific data available. |
| Information on the Likely Routes of Exposure | : Common routes of exposure: inhalation (failure to prevent dust formation), dermal (failure to use skin protection), eye (failure to use safety eyewear). Less common: ingestion (failure to employ recommended hygiene measures (e.g. smoking after handling product without washing hands or using hand protection)). |
| Additional Information | : To the best of our knowledge, the chemical, physical and toxicological properties of this product have not been thoroughly investigated. The toxicity classifications of this product are based upon professional judgement. |

Section 12. Ecological Information

Numerical Measures of Toxicity

| | |
|--|-------------------------------|
| Toxicity to Fish | : No specific data available. |
| Toxicity to Daphnia and Other Aquatic Invertebrates | : No specific data available. |
| Toxicity to Algae | : No specific data available. |

Persistence and Degradability

| | |
|----------------------------------|---|
| Biodegradability | : No specific data available. |
| Bioaccumulative Potential | : No specific data available. |
| Mobility in Soil | : No specific data available. |
| Other Adverse Effects | : An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. |

Section 13. Disposal Considerations

Waste Treatment Methods

| | |
|-------------------------------|--|
| Product | Dispose of in accordance with local, state, federal and national regulations. Refer to 40 CFR 260-299 for complete waste disposal regulations. Consult your local, state, or federal agency before disposing of any chemicals. |
| Contaminated Packaging | Empty containers retain product residue (solids, dusts, vapors, gases) and can be dangerous. Dispose of as unused product. |

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 14. Transport Information

| | DOT | IMDG | IATA |
|--------------------------|---------------|---------------|---------------|
| UN Number | Not regulated | Not regulated | Not regulated |
| UN Proper Shipping Name | - | - | - |
| Transport Hazard Classes | - | - | - |
| Packing Group | - | - | - |
| Environmental Hazards | - | - | - |
| Additional Information | - | - | - |

Special Precautions for User : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transporting in Bulk According to Annex II of MARPOL 73/78 and the IBC Code : Not applicable.

Section 15. Regulatory Information

TSCA (Toxic Substance Control Act):

This product is not listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory). Use of this product is restricted to research and development only. This product must be used under the supervision of a technically qualified individual as defined by the TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.

SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards

Acute Health Hazard (Acute toxicity (dermal, ingestion, inhalation)).

Massachusetts Right to Know Components

No components are subject to Massachusetts Right to Know Act.

Pennsylvania Right to Know Components

No components are subject to Pennsylvania Right to Know Act.

New Jersey Right to Know Components

No components are subject to New Jersey Right to Know Act.

Methylcyclopentadienylmolybdenum tricarbonyl dimer

Safety Data Sheet

Section 15. Regulatory Information

California Proposition 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

Section 16. Other Information
