SAFETY DATA SHEET

Section 1. Identification

Product Name:	Bis(2-diphenylphosphinoethyl)phenylphosphine
Product Type:	Solid
CAS Number:	23582-02-7
Product Number:	P2027
Recommended Use:	Laboratory chemical, chemical synthesis.
Product Manufacturer:	Ereztech LLC 11555 Medlock Bridge Road, Suite 100 Johns Creek, GA 30097
Product Information:	(888) 658-1221
In Case of an Emergency:	CHEMTREC: 1-800-424-9300 (USA); +1 703-527-3887 (International); CCN836180

I, chemical synthesis. ge Road, Suite 100 0097 424-9300 (USA); International); CCN836180 *** Contact manufacturer for all non-emergency calls.

Section 2. Hazards Identification

Appearance/Odor: Classification:

White powder, odor not determined. SKIN CORROSION/IRRITATION - Category 2, H315 SERIOUS EYE DAMAGE/EYE IRRITATION - Category 2A, H319 SPECIFIC TARGET ORGAN TOXICITY, SINGLE EXPOSURE; **RESPIRATORY TRACT IRRITATION – Category 3, H335**

GHS Label Elements Hazard Pictograms:

Signal Word: Hazard Statements:

Precautionary Statements Prevention:

WARNING

- H315: Causes skin irritation.
- H319: Causes serious eye irritation.
- H335: May cause respiratory irritation.
- P261: Avoid breathing dusts/aerosols/vapors/gases.
- P264 + P265: Wash hands, skin and face thoroughly after handling. Do not touch eyes.
- P271: Use only outdoors or in a well-ventilated area.

Section 2. Hazards Identification		
Prevention (cont.):	P280: Wear protective gloves/ protective clothing/ eye protection/ face protection.	
Response:	 P302 + P352: IF ON SKIN; Wash with plenty of water. P304 + P340: IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing. P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present. 	
	Continue rinsing.	
	P319: Get medical help if you feel unwell.	
	P332 + P317: If skin irritation occurs: Get medical help.	
	P337 + P317: If eye irritation persists: Get medical help.	
	P362 + P364: Take off contaminated clothing and wash it before reuse.	
Storage:	P403 + P233: Store in a well-ventilated place. Keep container tightly closed.	
	P405: Store locked up.	
Disposal:	P501: Dispose of contents/ container to an approved wasted disposal plant.	
OSHA/HCS Status:	This material is considered hazardous by the OSHA Hazard	
	Communication Standard (29 CFR 1910.1200).	
Hazards Not Otherwise Classified [HNOC]:	None identified.	

Section 3. Composition/Information on Ingredients

Formula B R I D G I N Synonyms Molecular Weight	 C₃₄H₃₃P₃ (Phenylphosphinediyl)bis diyl))bis(diphenylphosphin (diphenylphosphino)ethy 1,4,7-triphosphaheptane (phenylphosphinediyl)bis diyl)bis(diphenylphosphin : 534.56 g/mol 	(ethane-2,1- ine); Phosphir I]phenyl-; 1,1 ; 2,2'- (ethane-2,1-	ne, bis[2-
Ingredient Name		%	CAS Number

	10	
Bis(2-diphenylphosphinoethyl)phenylphosphine	≥ 97	23582-02-7

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First Aid Measures

Description of Necessary First Aid Measures

Description of Nee	Costar y Thist Ald Mice	
General Advice:		rous area. Get medical help immediately if symptoms develop II. Show this safety data sheet to the doctor in attendance.
Eye Contact:	-	eyes with plenty of water, occasionally lifting the upper and
,	3	ck for and remove any contact lenses. Continue rinsing. Get
	5	irritation develops and persists.
Skin Contact:		ated clothing and shoes immediately. Wash off contaminated
		water. Get medical help if irritation develops and persists, if
		or if you feel unwell.
Inhalation:	J 1	fresh air and keep at rest in a position comfortable for
	•	preathing, if breathing is irregular or if respiratory arrest
	5	ificial respiration or oxygen by trained personnel. It may be
	•	person providing aid to give mouth-to-mouth resuscitation. If
	e	in recovery position and get medical help immediately.
	•	airway. Loosen tight clothing such as a collar, tie, belt or
		edical help if symptoms develop or if you feel unwell.
Ingestion:		NOT induce vomiting. Remove dentures if any. If vomiting
ingeotioni		hould be kept low so that vomit does not enter the lungs.
		g by mouth to an unconscious person. If unconscious, place in
		nd get medical attention immediately. Maintain an open
		ht clothing such as a collar, tie, belt or waistband. Get
		ptoms develop or if you feel unwell.
Most Important S		cute and Delayed Potential Acute Health Effects
Eye Contact:		ious eye irritation. Symptoms may include watering, redness,
Ljo oomaon		e eyelids, inability to keep eye open, blurred vison and
	temporary loss of v	
Inhalation:	5	itating to respiratory system. Symptoms may include
	coughing, sore thro	oat, nausea, headache, vomiting.
Skin Contact:	Product causes ski	n irritation. Symptoms may include an itching or burning
	sensation, reddenii	ng, swelling and blistering with tissue necrosis.
Ingestion:	Product may be ex	pected to be irritating to mucous membranes. Symptoms may
0	5	ocalized pain, headache, nausea and vomiting.
Indication of Imm	ediate Medical Atte	ntion and Special Treatment Needed, If Necessary
Notes to Physiciar	n:	Treat symptomatically.
Specific Treatmen	ts:	No specific treatment indicated.
Protection of First	Responders:	No action taken shall be taken involving any personal risk
		without suitable training. It may be dangerous to the

person providing aid to give mouth-to-mouth resuscitation.

See Toxicological Information (Section 11)

Section 5. Fire Fighting Measures		
General Hazards:	None identified.	
Suitable Extinguishing Media:	Use water spray (fog), alcohol-resistant foam, dry chemical or carbon dioxide. Cool closed containers exposed to fire with water spray.	
Unsuitable Extinguishing Media:	None identified.	
Unusual Fire and Explosion Hazards:	None identified.	
Product of Combustion:	Carbon oxides (CO _x) and oxides of phosphorus.	
Protection of Firefighters:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Avoid contact with skin or eyes. Avoid the formation and inhalation of dusts, aerosols, vapors and gases.	
	Fire-fighters should wear appropriate protection equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode.	
Section 6.	Accidental Release Measures	

Personal Precautions, Protective Equipment and Emergency Procedures		
For Non-Emergency Personnel:	No action shall be taken involving any p suitable training. Evacuate surrounding	
	unnecessary and unprotected personne touch or walk through spilled material. and inhalation of dusts, aerosols, vapor adequate ventilation. Wear respiratory appropriate personal protective equipm	Avoid the formation s, and gases. Provide protection. Put on
For Emergency Responders:	If specialized clothing is required to deanote of any information in Section 8 on materials. See also the information in "I personnel".	suitable and unsuitable
Environmental Precautions:	Do not allow dispersal of spilled materia waterways, drains and sewers. Inform the if the product has caused environmenta waterways, soil or air).	the relevant authorities
Methods for Containment		
General:	Stop leak/spillage and move containers do so. Avoid the formation and inhalati aerosols. Dispose of collected spillage in federal, state and local regulations (see	ion of dusts and n accordance with
Ereztech P2027	Page 4 of 12	Revision: 1.00

	Section 6.	Accidental Release Measures
General (cont.):		Contaminated absorbent material may pose the same hazard as the spilled product.
Small Spill:		Collect spillage with a dry binding material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in dry, sealed container for disposal.
Large Spill:		Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with a dry binding material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in a dry, sealed container for disposal.
		Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and Storage

Precautions:

Protective Measures:

General Occupational Hygiene:

Safe Storage Conditions:

Product is air sensitive; handle under a dry, inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Keep container tightly sealed. Avoid contact with skin, eyes and clothing. Avoid the formation and inhalation of dust, aerosols, vapors and gases. Do not ingest. Avoid prolonged exposure. Ensure adequate ventilation.

Put on appropriate personal protective equipment (see Section 8). Keep in the original container kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking or smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Product is air sensitive; store under an inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Store in original container protected from direct sunlight in a dry and well-ventilated area, away from incompatible materials noted above and food and drink. Keep container tightly closed and sealed until ready for use. Store locked up.

Section 8. Exposure Controls/Personal Protection **Introductory Remarks:** These recommendations provide general guidance for handling this product. Because work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and conduct regular repairs. Waste from these procedures should be handled in accordance with Section 13. Product contains no substances with occupational exposure **Occupational Exposure Limits:** limit values. **Engineering Controls:** Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Provide an eyewash/shower station. **Environmental Exposure Controls:** Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. **Individual Protection Measures Hygiene Measures:**

Avoid all unnecessary exposure. Wash all exposed skin (hands, forearms and face) thoroughly after handling chemical products, before eating, smoking, using the lavatory and at the end of the working period. Remove all soiled and contaminated clothing immediately. Avoid the formation and inhalation of dusts, aerosols, vapors or gases. Avoid contact with eyes and skin. Ensure that eyewash stations and safety showers are close to the workstation location.

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to dusts and aerosols. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles, faceshield (8-inch minimum). Refer to 29 CFR 1910.133, ANSI Z87.1, or European Standard EN166.

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties.

Eye/Face Protection:

Skin Protection Hand Protection:

Section 8. Exposure Controls/Personal Protection

Hand Protection (cont.):	It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves.
	Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. For full contact, use Neoprene or nitrile rubber.
Other Skin Protection:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory Protection:	Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as
	NIOSH (US) or CEN (EU).

Section 9. Physical and Chemical Properties

Physical State: Color: Odor: Odor Threshold: pH: Melting Point: Boiling Point: Flash Point: Flash Point: Auto-ignition temperature: Specific Gravity: Water Solubility: Powder. White. No data available. No data available. No data available. 130 - 132 °C (266 - 270 °F). No data available. No data available. No data available. No data available. No data available.

Section 10. Stability and Reactivity

Reactivity:	No data available.
Chemical Stability:	This product is stable when stored under a dry, inert atmosphere and away from heat. Nitrogen containing less than 5 ppm each moisture and air is recommended.
Conditions to Avoid:	Exposure to air.
Incompatible Materials:	Strong oxidizing agents.
Hazardous Decomposition Products:	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Hazardous decomposition products formed under fire conditions: carbon oxides (CO_X) and oxides of phosphorus. In the event of a fire: see section 5.
Possibility of Hazardous Reactions:	Under normal conditions of storage and use noted above, hazardous reactions will not occur. Hazardous reactions or instability may occur under certain conditions of storage or use.
Section 11. Toxicological Information	

Information on Toxicological Effects	
Acute Toxicity	: No toxicity data is available for this product.
Irritation/Corrosion	: No specific data available. Product causes skin irritation and serious eye irritation.
Sensitization	: No specific data available.
Germ Cell Mutagenicity	: No specific data available.
Carcinogenity	
IARC	 No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
ACGIH	 No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by ACGIH.
NTP	 No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by NTP.
OSHA	 No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA.
Reproductive Toxicity	: No specific data available.
Teratogenicity	: No specific data available.

. .

Section 11.	Toxicological Information
Specific Target Organ Toxicity (Single Exposure)	: Inhalation may cause respiratory tract irritation.
Specific Target Organ Toxicity (Repeated Exposure)	: No specific data available.
Aspiration Hazard	: No specific data available.
Information on the Likely Routes of Exposure	: Common routes of exposure: inhalation (failure to prevent dust formation), dermal (failure to use skin protection), eye (failure to use safety eyewear). Less common: ingestion (failure to employ recommended hygiene measures (e.g. smoking after handling product without washing hands or using hand protection).
Additional Information	 To the best of our knowledge, the chemical, physical and toxicological properties of this product have not been thoroughly investigated.

Section 12. Ecological Information

Numerical Measures of Toxicity	
Toxicity to Fish	: No specific data available.
Toxicity to Daphnia and Other Aquatic Invertebrates	: No specific data available.
Toxicity to Algae	: No specific data available.
Persistence and Degradability	
-Biodegradability	: No specific data available.
Bioaccumulative Potential	: No specific data available.
Mobility in Soil	: No specific data available.
Other Adverse Effects	: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Section 13	. Disposal Considerations
Waste Treatment Methods	
Product	: Dispose of in accordance with local, state, and federal regulations. Refer to 40 CFR 260-299 for complete waste disposal regulations. Consult your local, state, or federal agency before disposing of any chemicals.
Contaminated Packaging	: Empty containers retain product residue (dusts, aerosols, vapors and gases) and can be dangerous. Dispose of as unused product.

Special Precautions for User

: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transporting in Bulk According to Annex II of MARPOL 73/78 and the IBC Code

: Not applicable.

Section 15. Regulatory Information

TSCA (Toxic Substance Control Act)

This product is not listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory). Use of this product is restricted to research and development only. This product must be used under the supervision of a technically qualified individual as defined by the TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.

SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards

Acute Health Hazard (Skin and Eye Irritant); Specific Target Organ Toxicity - Single Exposure (Respiratory Tract Irritation).

Massachusetts Right to Know Components

No components are subject to Massachusetts Right to Know Act.

Pennsylvania Right to Know Components

No components are subject to Pennsylvania Right to Know Act.

Section 15. Regulatory Information

New Jersey Right to Know Components

No components are subject to New Jersey Right to Know Act.

California Proposition 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.
