

# SAFETY DATA SHEET

## Section 1. Identification

|  |  |
|--|--|
| <b>Product Name:</b>                   | <a href="#">Tin(II) ethoxide</a>   |
| <b>Product Type:</b>                   | Solid  |
| <b>CAS Number:</b>                     | 14791-99-2   |
| <b>Product Number:</b>                 | SN1992   |
| <b>Recommended Use:</b>                | Laboratory chemicals, synthesis of substances.   |
| <b>Uses Advised Against:</b>           | This product is being supplied under the TSCA R&D Exemption (40 CFR Section 720.36). It is the recipient's responsibility to comply with the requirements of the R&D exemption. The product may not be used for a non-exempt commercial purpose under TSCA unless appropriate consent is granted in writing by Ereztech LLC. |
| <b>Product Manufacturer:</b>           | Ereztech LLC<br>11555 Medlock Bridge Road, Suite 100<br>Johns Creek, GA 30097  |
| <b>Product Information:</b>            | (888) 658-1221   |
| <b><u>In Case of an Emergency:</u></b> | CHEMTREC: 1-800-424-9300 (USA);<br>+1 703-527-3887 (International); CCN836180<br>*** Contact manufacturer for all non-emergency calls.   |

## Section 2. Hazards Identification

### Emergency Overview

|                         |   |
|-------------------------|---|
| <b>Appearance/Odor:</b> | White crystalline powder, alcohol-like odor.  |
| <b>Classification:</b>  | SKIN CORROSION/IRRITATION – Category 2, H315<br>SERIOUS EYE DAMAGE/EYE IRRITATION – Category 2, H319<br>SPECIFIC TARGET ORGAN TOXICITY, SINGLE EXPOSURE;<br>RESPIRATORY TRACT IRRITATION – Category 3, H335 |

### GHS Label Elements

#### **Hazard Pictograms:**

|                     |         |
|---------------------|---------|
| <b>Signal Word:</b> | WARNING |
|---------------------|---------|

# Tin(II) ethoxide

## Safety Data Sheet

### Section 2. Hazards Identification

**Hazard Statements:**

H315: Causes skin irritation.  
H319: Causes serious eye irritation.  
H335: May cause respiratory irritation.

**Precautionary Statements****Prevention:**

P261: Avoid breathing dusts/aerosols/vapors/gases.  
P264 + P265: Wash hands and exposed skin thoroughly after handling. Do not touch eyes.  
P271: Use only outdoors or with adequate ventilation.  
P280: Wear protective gloves/eye protection/ face protection.  
P302 + P352: IF ON SKIN: Wash with plenty of water.  
P304 + P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.  
P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P319: Get medical help if you feel unwell.  
P332 + P317: If skin irritation occurs: Get medical help.  
P337 + P317: If eye irritation persists: Get medical help.  
P362 + P364: Take off contaminated clothing and wash it before reuse.

**Response:**

P403 + P233: Store in a well ventilated place. Keep container tightly closed.

**Storage:**

P405: Store locked up.

**Disposal:**

P501: Dispose of contents/container in accordance with federal, state and local regulations.

**OSHA/HCS Status:**

This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

**Hazards Not Otherwise Classified (HNOC):**

None known.

### Section 3. Composition/Information on Ingredients

**Substance Type:**

Mono-constituent.

**Synonyms:**

Ethylalcohol, tin(2+) salt (8CI); Tin diethoxide; Tin(2+) ethoxide; Diethoxytin; Ethanolate, tin(2+); Tetraethoxystannane.

**Formula:**

C<sub>4</sub>H<sub>10</sub>O<sub>2</sub>Sn

**Molecular Weight:**

208.81 g/mol.

**EC-No. :**

677-367-4

| Component Name                   | %      | CAS Number |
|----------------------------------|--------|------------|
| <a href="#">Tin(II) ethoxide</a> | ≥ 97.5 | 14791-99-2 |

# Tin(II) ethoxide

## Safety Data Sheet

### Section 3. Composition/Information on Ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First Aid Measures

#### Description of Necessary First Aid Measures

**General Advice:** Move out of dangerous area. If unconscious, place in recovery position and get medical help immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical help if symptoms develop or if you feel unwell. Show this safety data sheet to the doctor in attendance.

**Eye Contact:** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses if easy to do. Continue rinsing. Get medical help if eye irritation develops and persists.

**Skin Contact:** Take off contaminated clothing and shoes immediately. Wash off contaminated skin with plenty of water. Get medical help if irritation develops and persists.

**Inhalation:** Remove person to fresh air and keep comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical help if symptoms develop or if you feel unwell.

**Ingestion:** Rinse mouth. Do NOT induce vomiting. Remove dentures if any. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Get medical help if symptoms develop or if you feel unwell.

#### Most Important Symptoms/Effects, Acute And Delayed Potential Acute Health Effects

**Eye Contact:** Symptoms may include stinging, tearing, redness, swelling and blurred vision.

**Skin Contact:** Symptoms may include an itching or burning sensation, reddening, swelling and blistering with tissue necrosis.

**Inhalation:** Product may be irritating to respiratory system. Symptoms may include coughing, sneezing with phlegm production, sore throat, nausea, headache, vomiting. Due to the slow release of ethanol in the presence of water, product may cause dizziness or drowsiness if inhaled.

**Ingestion:** Product may be expected to be irritating to mucous membranes. Ingested product may be expected to have a purgative effect upon the digestive system which may result in diarrhea and vomiting. Symptoms may include cramping, localized pain, headache, nausea and vomiting.

# Tin(II) ethoxide

## Safety Data Sheet

### Section 4. First Aid Measures

#### Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

|  |   |
|--|---|
| <b>Notes to Physician:</b>             | Treat symptomatically.  |
| <b>Specific Treatments:</b>            | No specific treatment.  |
| <b>Protection of First Responders:</b> | No action taken shall be taken involving any personal risk without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |

See Toxicological Information (Section 11)

### Section 5. Fire Fighting Measures

|  |  |
|--|--|
| <b>General Hazards:</b>                    | None identified.   |
| <b>Suitable Extinguishing Media:</b>       | THE MOST EFFECTIVE FIRE EXTINGUISHING AGENT IS DRY CHEMICAL POWDER PRESSURIZED WITH NITROGEN.<br>Carbon dioxide (CO <sub>2</sub> ) may also be used.   |
| <b>Unsuitable Extinguishing Media:</b>     | DO NOT USE WATER OR FOAM.  |
| <b>Unusual Fire and Explosion Hazards:</b> | None identified.   |
| <b>Product of Combustion:</b>              | Decomposition products include ethanol, carbon oxides (CO <sub>x</sub> ) and tin oxides. Irritating fumes and organic acid vapors may be generated during exposure to elevated temperatures or open flame.   |
| <b>Protection of Firefighters:</b>         | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Avoid contact with skin or eyes. Avoid the formation and inhalation of dusts, aerosols, vapors and gases.<br><br>To reduce the possibility of explosion, use a water spray or fog to reduce direct vapors and to cool unopened containers. Fire-fighters should wear appropriate protection equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode. |

### Section 6. Accidental Release Measures

#### Personal Precautions, Protective Equipment and Emergency Procedures

|                                     |  |
|-------------------------------------|--|
| <b>For Non-Emergency Personnel:</b> | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid contact with skin, eyes or clothing. |
|-------------------------------------|--|

# Tin(II) ethoxide

## Safety Data Sheet

### Section 6. Accidental Release Measures

**For Non-Emergency Personnel:**  
(cont.)

Avoid the formation and inhalation of dusts, aerosols, vapors and gases. Provide adequate ventilation or wear respiratory protection. Put on appropriate personal protective equipment.

**For Emergency Responders:**

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency Personnel".

**Environmental Precautions:**

Do not allow dispersal of spilled material and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

**Methods for Containment**

**General:**

Stop leak/spillage and move containers from spill area if safe to do so. Avoid the formation and inhalation of dusts, aerosols, vapors and gases. Dispose of collected spillage in accordance with federal, state and local regulations (see Section 13). Contaminated binding material may pose the same hazard as the spilled product.

**Small Spill:**

Collect spillage with a dry, binding material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in dry, sealed container for disposal.

**Large Spill:**

Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with a dry, binding material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in dry, sealed container for disposal.

Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and Storage

**Precautions:**

Product is air/moisture sensitive; handle under a dry, inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Avoid the formation and inhalation of dusts, aerosols, vapors and gases. Avoid contact with skin, eyes and clothing. Do not ingest. Keep container tightly sealed. Avoid prolonged exposure. Ensure adequate ventilation.

**Protective Measures:**

Put on appropriate personal protective equipment (see Section 8). Keep in the original container kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

# Tin(II) ethoxide

## Safety Data Sheet

### Section 7. Handling and Storage

#### General Occupational Hygiene:

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

#### Safe Storage Conditions:

Product is air/moisture sensitive; store under an inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Store in original container protected from direct sunlight in a dry and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Store locked up.

### Section 8. Exposure Controls/Personal Protection

#### Introductory Remarks:

These recommendations provide general guidance for handling this product. Because work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and conduct regular repairs. Waste from these procedures should be handled in accordance with Section 13.

#### Occupational Exposure Limits

| Components    | CAS-No. | List    | Type | Value                   |
|---------------|---------|---------|------|-------------------------|
| Tin compounds | -       | ACGIH   | TLV  | 2 mg/m <sup>3</sup> TWA |
|               |         | NIOSH   | REL  | 2 mg/m <sup>3</sup> TWA |
|               |         | OSHA Z1 | PEL  | 2 mg/m <sup>3</sup> TWA |

#### Engineering Controls:

Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Provide an eyewash/shower station.

#### Environmental Exposure Controls:

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### Individual Protection Measures

##### Hygiene Measures:

Avoid all unnecessary exposure.

### Section 8. Exposure Controls/Personal Protection

# Tin(II) ethoxide

## Safety Data Sheet

### Hygiene Measures (cont.):

Wash all exposed skin (hands, forearms and face) thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Remove all soiled and contaminated clothing immediately. Do not allow contaminated clothing to leave the workplace. Do not inhale dusts, aerosols, vapors or gases. Avoid contact with eyes and skin. Ensure that eyewash stations and safety showers are close to the workstation location.

### Eye/Face Protection:

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to dusts and aerosols. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles, faceshield (8-inch minimum). Refer to 29 CFR 1910.133, ANSI Z87.1, or European Standard EN166.

### Skin Protection

#### Hand Protection:

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves.

Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. For full contact, wear Neoprene or nitrile rubber gloves.

#### Other Skin Protection:

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## Section 8. Exposure Controls/Personal Protection

# Tin(II) ethoxide

## Safety Data Sheet

### Respiratory Protection:

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

## Section 9. Physical and Chemical Properties

### Physical State:

Solid (crystalline powder).

### Color:

White.

### Odor:

Alcohol-like.

### Odor Threshold:

No data available.

### pH:

No data available.

### Melting Point:

> 200 °C (> 392 °F).

### Boiling Point:

No data available.

### Flash Point:

> 110 °C (> 230 °F).

### Auto-ignition temperature:

No data available.

### Density:

No data available.

### Water Solubility:

Reacts with water to release ethanol.

### Evaporation Rate:

Not applicable.

### Viscosity:

Not applicable.

## Section 10. Stability and Reactivity

### Reactivity:

No additional data available.

### Chemical Stability:

This product is stable when stored under a dry, inert atmosphere and away from heat. Nitrogen containing less than 5 ppm each moisture and air is recommended.

### Conditions to Avoid:

Exposure to air/moisture/water.

### Incompatible Materials:

Strong oxidizing agents.

### Hazardous Decomposition Products:

Hazardous decomposition products formed under fire conditions: ethanol, carbon oxides (CO<sub>x</sub>) and tin oxides. Irritating fumes and organic acid vapors may be generated during exposure to elevated temperatures or open flame. In the event of a fire: see Section 5.

## Section 10. Stability and Reactivity

# Tin(II) ethoxide

## Safety Data Sheet

**Possibility of Hazardous Reactions:** Under normal conditions of storage and use noted above, hazardous reactions will not occur. Hazardous reactions or instability may occur under certain conditions of storage or use.

## Section 11. Toxicological Information

### Information on Toxicological Effects

**Acute Toxicity:** No specific data available.

**Irritation/Corrosion:** No specific data available. Product causes skin irritation and serious eye irritation.

**Sensitization:** No specific data available.

**Germ Cell Mutagenicity:** No specific data available.

**Carcinogenicity**

| Component        | CAS No     | ACGIH      | IARC       | NTP        | OSHA       |
|------------------|------------|------------|------------|------------|------------|
| Tin(II) ethoxide | 14791-99-2 | Not listed | Not listed | Not listed | Not listed |

**Reproductive Toxicity:** No specific data available.

**Teratogenicity:** No specific data available.

**Specific Target Organ Toxicity: (Single Exposure)** Respiratory tract irritation.

**Specific Target Organ Toxicity: (Repeated Exposure)** No specific data available.

**Aspiration Hazard:** No specific data available.

**Information on the Likely Routes of Exposure:** Common routes of exposure: inhalation (failure to prevent dust formation), dermal (failure to use skin protection), eye (failure to use safety eyewear). Less common: ingestion (failure to employ recommended hygiene measures (e.g. smoking after handling product without washing hands or using hand protection)).

**Additional Information:** To the best of our knowledge, the chemical, physical and toxicological properties of this product have not been thoroughly investigated.

## Section 12. Ecological Information

**Ecotoxicity:** The impact of this product on the environment has not been tested.

## Section 12. Ecological Information

# Tin(II) ethoxide

## Safety Data Sheet

|   |   |
|---|---|
| <b>Numerical Measures of Toxicity:</b>      | No specific data available.   |
| <b><u>Persistence and Degradability</u></b> |   |
| <b>Biodegradability:</b>                    | No specific data available.   |
| <b>Bioaccumulative Potential:</b>           | No specific data available.   |
| <b>Mobility in Soil:</b>                    | No specific data available.   |
| <b>Results of PBT and vPvB Assessment:</b>  | PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.   |
| <b>Endocrine Disrupting Properties:</b>     | No specific data available.   |
| <b>Other Adverse Effects:</b>               | This substance may be hazardous to the environment. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. |

## Section 13. Disposal Considerations

### Waste Treatment Methods

|                                |   |
|--------------------------------|---|
| <b>Product:</b>                | Dispose of in accordance with local, state, and federal regulations. Refer to 40 CFR 260-299 for complete waste disposal regulations. Consult your local, state, or federal agency before disposing of any chemicals. |
| <b>Contaminated Packaging:</b> | Empty containers retain product residue (dusts, aerosols, vapors and gases) and can be dangerous. Dispose of as unused product.   |

## Section 14. Transport Information

|                                 | DOT           | IMDG          | IATA          |
|---------------------------------|---------------|---------------|---------------|
| <b>UN Number</b>                | Not regulated | Not regulated | Not regulated |
| <b>UN Proper Shipping Name</b>  | -             | -             | -             |
| <b>Transport Hazard Classes</b> | -             | -             | -             |
| <b>Packing Group</b>            | -             | -             | -             |
| <b>Environmental Hazards</b>    | -             | -             | -             |
| <b>Additional Information</b>   | -             | -             | -             |

|                                      |  |
|--------------------------------------|--|
| <b>Special Precautions for User:</b> | Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage. |
|--------------------------------------|--|

## Section 15. Regulatory Information

### Toxic Substance Control Act (TSCA)

# Tin(II) ethoxide

## Safety Data Sheet

This product is not listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory). Use of this product is restricted to research and development only. This product must be used under the supervision of a technically qualified individual as defined by the TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.

This product as supplied is not subject to the TSCA Significant New Use Rule.

This product as supplied is not subject to TSCA 12(b) export notification requirements.

### SARA 302 Components

This product does not contain any components which are subject to the reporting requirements of SARA Title III, Section 302 EHS TPQ.

### SARA 304 Components

This product does not contain any components which are subject to the reporting requirements of SARA Title III, Section 304 RQ.

### SARA 311/312 Hazards

Acute Health Hazard (Skin corrosion or irritation; Serious eye damage or eye irritation; Specific Target Organ Toxicity (STOT), single exposure: respiratory irritation).

### SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

### Clean Water Act

Not applicable.

### Clean Air Act

Not applicable.

### CERCLA Reportable Quantity

This product, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

### US Department of Homeland Security (DHS)

This product does not contain any DHS chemicals.

### US Department of Transportation (DOT)

| Component        | Reportable Quantity | DOT Marine Pollutant | DOT Severe Marine Pollutant |
