

# SAFETY DATA SHEET

## Section 1. Identification

<b>Product Name:</b>	<a href="#">Methyltin trichloride</a>
<b>Product Type:</b>	Solid
<b>CAS Number:</b>	993-16-8
<b>Product Number:</b>	SN3168
<b>Product Manufacturer:</b>	Ereztech LLC 11555 Medlock Bridge Road, Suite 100 Johns Creek, GA 30097
<b>Product Information:</b>	(888) 658-1221
<b><u>In Case of an Emergency:</u></b>	CHEMTREC: 1-800-424-9300 (USA); +1 703-527-3887 (International); CCN836180 *** Contact manufacturer for all non-emergency calls.

## Section 2. Hazards Identification

<b>Appearance/Odor:</b>	White crystalline powder, acrid odor.
<b>Classification:</b>	FLAMMABLE SOLID – Category 2, H228 ACUTE TOXICITY; ORAL - Category 4, H302 ACUTE TOXICITY; DERMAL – Category 3, H311 SKIN CORROSION/IRRITATION – Category 1B, H314 SENSITISATION, SKIN – Category 1, H317 SERIOUS EYE DAMAGE/EYE IRRITATION – Category 1, H318 ACUTE TOXICITY; INHALATION – Category 3, H331 GERM CELL MUTAGENICITY – Category 2, H341 REPRODUCTIVE TOXICITY – Category 2, H361 HAZARDOUS TO THE AQUATIC ENVIRONMENT, ACUTE TOXICITY – Category 1, H400 HAZARDOUS TO THE AQUATIC ENVIRONMENT, CHRONIC TOXICITY – Category 1, H410

### GHS Label Elements

<b>Signal Word:</b>	DANGER
<b>Hazard Statements:</b>	H225: Highly flammable liquid and vapor. H302: Harmful if swallowed. H311: Toxic in contact with skin. H314: Causes severe skin burns and eye damage. H317: May cause an allergic skin reaction. H318: Causes serious eye damage.

# Methyltin trichloride

## Safety Data Sheet

### Section 2. Hazards Identification

- Hazard Statements (cont.):**
- H331: Toxic if inhaled.
  - H341: Suspected of causing genetic defects.
  - H361: Suspected of damaging fertility or the unborn child.
  - H400: Very toxic to aquatic life.
  - H410: Very toxic to aquatic life with long lasting effects.

**Hazard Pictograms:**

**Precautionary Statements**

**Prevention:**

- P201: Obtain special instructions before use.
- P202: Do not handle until all safety precautions have been read and understood.
- P210: Keep away from heat/sparks/open flames/hot surfaces. – No smoking.
- P240: Ground/Bond container and receiving equipment.
- P241: Use explosion-proof electrical/ventilating/lighting equipment.
- P260: Do not breathe dusts/aerosols/ gases.
- P264: Wash skin thoroughly after handling.
- P270: Do not eat, drink or smoke when using this product.
- P271: Use only outdoors or in a well-ventilated area.
- P272: Contaminated work clothing should not be allowed out of the workplace.
- P273: Avoid release to the environment.
- P280: Wear protective gloves/ protective clothing/ eye protection/ face protection.

**Response:**

- P301 + P312: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
- P301 + P330 + P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- P302 + P352: IF ON SKIN: Wash with plenty of soap and water.
- P303 + P361 + P353: IF ON SKIN (or hair): Remove/take off immediately all contaminated clothing. Rinse skin with water/shower.
- P304 + P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

# Methyltin trichloride

## Safety Data Sheet

### Section 2. Hazards Identification

<b>Response (cont.):</b>	P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308 + P313: If exposed or concerned: Get medical advice/attention. P310: Immediately call a POISON CENTER or doctor/physician. P330: Rinse mouth. P333 + P313: If skin irritation or rash occurs: Get medical advice/attention. P361: Remove/Take off immediately all contaminated clothing. P363: Wash contaminated clothing before reuse. P370 + P378: In case of fire: Use dry sand, carbon dioxide, dry chemical or alcohol resistant foam for extinction. P391: Collect spillage.
<b>Storage:</b>	P403 + P233: Store in a well ventilated place. Keep container tightly closed.
<b>Disposal:</b>	P405: Store locked up. P501: Dispose of contents/ container to an approved waste disposal plant.
<b>General:</b>	None identified.
<b>OSHA/HCS Status:</b>	This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
<b>Hazards Not Otherwise Classified (HNOC):</b>	Product reacts vigorously with water to release flammable gases.

### Section 3. Composition/Information on Ingredients

#### Substances

<b>Synonyms</b>	: Trichloromethylstannane; Methyltrichlorotin; Stannane, trichloromethyl-; Monomethyltin trichloride.
<b>Formula</b>	: CH <sub>3</sub> Cl <sub>3</sub> Sn
<b>Molecular Weight</b>	: 240.08 g/mol
<b>CAS-No.</b>	: 993-16-8

Ingredient Name	%	CAS Number
<a href="#">Methyltin trichloride</a>	≥ 97	993-16-8

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# Methyltin trichloride

## Safety Data Sheet

### Section 4. First Aid Measures

#### Description of Necessary First Aid Measures

- General Advice:** Move out of dangerous area. Call a POISON CENTER or doctor/physician immediately. Show this safety data sheet to the doctor in attendance. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Eye Contact:** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Rinse for a minimum of 15 minutes. Check for and remove any contact lenses after initial rinse period and continue rinsing for an additional 15 minutes. Keep eyes wide open during rinsing process. Call a POISON CENTER or doctor/physician immediately.
- Skin Contact:** Remove all contaminated clothing and shoes. Wash off contaminated skin with soap and plenty of water. Call a POISON CENTER or doctor/physician immediately.
- Inhalation:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Call a POISON CENTER or doctor/physician immediately.
- Ingestion:** Do NOT induce vomiting. Rinse mouth. Remove dentures if any. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Call a POISON CENTER or doctor/physician immediately.

#### Most Important Symptoms/Effects, Acute and Delayed Potential Acute Health Effects

- Eye Contact:** *R* Causes serious eye damage. Symptoms may include watering, redness, pain, swelling of the eyelids, inability to keep eye open, blurred vision and temporary/permanent loss of vision.
- Inhalation:** Product is toxic if inhaled and is corrosive to mucous membranes and tissues of the upper respiratory tract. Symptoms may include a burning sensation, coughing, coughing up blood (hemoptysis), wheezing, laryngitis, shortness of breath/ difficulty in breathing (dyspnea), blueness (cyanosis) of lips and skin, nausea, headaches, disorientation, general weakness and loss of consciousness.
- Skin Contact:** Product is toxic in contact with the skin and may be expected to cause (severe) chemical burns. Symptoms may include reddening of skin, a burning or itching sensation, pain, blistering and tissue necrosis.
- Ingestion:** Product is harmful if ingested and may be expected to result in burns of the mouth and throat and potential perforation of the esophagus and stomach. Symptoms may include pain when swallowing (odynophagia), difficulty swallowing (dysphagia), fever, nausea, recurrent vomiting (emesis) and vomiting of blood (hematemesis).

# Methyltin trichloride

## Safety Data Sheet

### Section 4. First Aid Measures

**Ingestion (cont.):** Severe burns which may be accompanied by perforation of the esophagus and stomach may present additional symptoms of abdominal pain/rigidity, chest and/or back pain.

#### Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

**Notes to Physician:** Poisoning by the product may initially be asymptomatic. Treat symptomatically.

**Specific Treatments:** No specific treatment.

**Protection of First Responders:** No action taken shall be taken involving any personal risk without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See Toxicological Information (Section 11)

### Section 5. Fire Fighting Measures

**General Hazards:** Flammable solid.

**Suitable Extinguishing Media:** THE MOST EFFECTIVE FIRE EXTINGUISHING AGENT IS DRY CHEMICAL POWDER PRESSURIZED WITH NITROGEN. Vermiculite, sand, dry chemical or carbon dioxide (CO<sub>2</sub>) may also be used. Fight larger fires with alcohol resistant foam.

**Unsuitable Extinguishing Media:** DO NOT USE WATER OR FOAM.

**Unusual Fire and Explosion Hazards:** Product runoff to sewer may create a fire or explosion hazard. Vapors/gases released under fire conditions are heavier than air and may spread long distances along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to an ignition source and flashback.

**Product of Combustion:** Decomposition products may include carbon oxides (CO<sub>x</sub>), hydrogen chloride and tin oxides. Irritating fumes and organic acid vapors may be generated during exposure to elevated temperatures or open flame.

**Protection of Firefighters:** Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Avoid contact with skin or eyes. Avoid the formation and inhalation of dusts and aerosols.

Eliminate all local and distant ignition sources. Move containers from fire area if process can be accomplished without risk to firefighters. Do not cut, grind, drill or weld on or near product containers (even empty) of this product because an explosion may result.

# Methyltin trichloride

## Safety Data Sheet

### Section 5. Fire Fighting Measures

**Protection of Firefighters (cont.):** Fire-fighters should wear appropriate protection equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode.

### Section 6. Accidental Release Measures

#### Personal Precautions, Protective Equipment and Emergency Procedures

**For Non-Emergency Personnel:** No action shall be taken involving any personal risk or without suitable training. Remove all sources of ignition – NO SMOKING. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid the formation and inhalation of dusts and aerosols. Provide adequate ventilation. Wear respiratory protection. Put on appropriate personal protective equipment.

**For Emergency Responders:** If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency Personnel".

**Environmental Precautions:** Do not allow dispersal of spilled material and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Methods for Containment

**General:** Eliminate all local and distant ignition sources. Move containers from spill area if safe to do so. Avoid allowing the spilled material to get wet or using water to clean up spillages or residues. Use spark-proof tools and explosion-proof equipment.

**Small Spill:** Contain and collect spillage with a dry, non-combustible binding material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in dry, sealed container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor.

**Large Spill:** Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with a dry, non-combustible binding material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in dry, sealed container for disposal according to local regulations (see Section 13).

# Methyltin trichloride

## Safety Data Sheet

### Section 6. Accidental Release Measures

#### Large Spill (cont.):

Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.

### Section 7. Handling and Storage

#### Precautions:

Product is moisture sensitive; handle under a dry, inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Keep away from all sources of ignition – NO SMOKING. Keep container tightly sealed. Avoid contact with skin, eyes and clothing. Avoid the formation and inhalation of dusts and aerosols. Do not ingest. Avoid prolonged exposure. Ensure adequate ventilation.

#### Protective Measures:

Protect against electrostatic charges. Use explosion-proof electrical/ventilating/lighting/handling equipment. Use only non-sparking tools and equipment. Put on appropriate personal protective equipment (see Section 8). Keep in the original container kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

#### General Occupational Hygiene:

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

#### Safe Storage Conditions:

Product is moisture sensitive; store under an inert gas. Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Store refrigerated at 2 °C to 8 °C. Keep away from all sources of ignition – NO SMOKING. Store in original container protected from direct sunlight in a dry and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Store locked up.

### Section 8. Exposure Controls/Personal Protection

#### Introductory Remarks:

These recommendations provide general guidance for handling this product. Because work environments and material handling practices vary, safety procedures should be developed for each intended application.

# Methyltin trichloride

## Safety Data Sheet

### Section 8. Exposure Controls/Personal Protection

#### Introductory Remarks (cont.):

While developing safe handling procedures, do not overlook the need to clean equipment and conduct regular repairs. Waste from these procedures should be handled in accordance with Section 13.

#### Occupational Exposure Limits

List	Components	CAS-No.	Type	Value
ACGIH	Methyltin trichloride	993-16-8	TLV	0.1 mg/m <sup>3</sup> (TWA) Sn 0.2 mg/m <sup>3</sup> (STEL) Sn
OSHA Z1	Methyltin trichloride	993-16-8	PEL	0.1 mg/m <sup>3</sup> (TWA) Sn

#### Engineering Controls:

Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Provide an eyewash/shower station.

#### Environmental Exposure Controls:

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### Individual Protection Measures

##### Hygiene Measures:

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Remove all soiled and contaminated clothing immediately. Do not inhale dusts, aerosols, vapors or gases. Avoid contact with eyes and skin. Ensure that eyewash stations and safety showers are close to the workstation location.

##### Eye/Face Protection:

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to dusts and aerosols. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles, faceshield (8-inch minimum). Refer to 29 CFR 1910.133, ANSI Z87.1, or European Standard EN166.

##### Skin Protection

##### Hand Protection:

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties.

# Methyltin trichloride

## Safety Data Sheet

### Section 8. Exposure Controls/Personal Protection

#### Hand Protection (cont.):

It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves.

Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. For full contact, wear gloves made from Neoprene or nitrile rubber.

#### Other Skin Protection:

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

#### Respiratory Protection:

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

### Section 9. Physical and Chemical Properties

<b>Physical State:</b>	Solid.
<b>Color:</b>	White crystalline powder.
<b>Odor:</b>	Acrid.
<b>Odor Threshold:</b>	No data available.
<b>pH:</b>	No data available.
<b>Melting Point:</b>	48 – 51 °C (118 – 124 °F) - lit.
<b>Boiling Point:</b>	171 °C (340 °F) - lit.
<b>Flash Point:</b>	41 °C (105.8 °F) – closed cup.
<b>Auto-ignition temperature:</b>	No data available.

# Methyltin trichloride

## Safety Data Sheet

### Section 9. Physical and Chemical Properties

<b>Relative Density:</b>	No data available.
<b>Vapor Pressure:</b>	No data available.
<b>Vapor Density:</b>	Not applicable.
<b>Water Solubility:</b>	Slightly soluble.

### Section 10. Stability and Reactivity

<b>Reactivity:</b>	No additional information available.
<b>Chemical Stability:</b>	This product is stable when stored under a dry, inert atmosphere and away from heat. Nitrogen containing less than 5 ppm each moisture and air and a temperature range of 2 °C to 8 °C is recommended. This product is not sensitive to impact.
<b>Conditions to Avoid:</b>	Exposure to water/moisture, sources of ignition (heat, flames, sparks, electrostatic discharge), extremes of temperature and direct sunlight.
<b>Incompatible Materials:</b>	Water, compounds containing active hydrogen (alcohols, strong acids) and strong oxidizing agents.
<b>Hazardous Decomposition Products:</b>	Carbon oxides (CO <sub>x</sub> ), hydrogen chloride, tin oxides and organic acid vapors.
<b>Possibility of Hazardous Reactions:</b>	Under normal conditions of storage and use noted above, hazardous reactions will not occur. Hazardous reactions or instability may occur under certain conditions of storage or use.

### Section 11. Toxicological Information

#### Information on Toxicological Effects

**Acute Toxicity** : Product is toxic if inhaled or in contact with skin. Product is harmful if swallowed.

Component	CAS No	Result	Species	Dose	Exposure
Methyltin trichloride	993-16-8	LD50 Oral	Rat	575 - 1370 mg/kg	-

**Irritation/Corrosion** : No specific data available. Product is corrosive to exposed eye and skin tissues as well as to exposed mucous membranes.

**Sensitization** : No specific data available. Product is suspected of causing skin sensitization.

# Methyltin trichloride

## Safety Data Sheet

### Section 11. Toxicological Information

- Germ Cell Mutagenicity** : Product is suspected of causing germ cell mutations.
- Carcinogenicity**
- IARC** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
- ACGIH** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by ACGIH.
- NTP** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by NTP.
- OSHA** : No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA.
- Reproductive Toxicity** : Product is suspected of causing reproductive or developmental effects.
- Teratogenicity** : No specific data available.
- Specific Target Organ Toxicity (Single Exposure)** : No specific data available.
- Specific Target Organ Toxicity (Repeated Exposure)** : No specific data available.
- Aspiration Hazard** : No specific data available.
- Information on the Likely Routes of Exposure** : Common routes of exposure: inhalation (failure to prevent dust formation), dermal (failure to use skin protection), eye (failure to use safety eyewear). Less common: ingestion (failure to employ recommended hygiene measures (e.g. smoking after handling product without washing hands or using hand protection)).
- Additional Information** : To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

### Section 12. Ecological Information

#### Numerical Measures of Toxicity

Component	CAS No	Test	Species	Dose	Exposure
Methyltin trichloride	993-16-8	LC50 Fish	Fathead Minnow	320 mg/l	96 h
	993-16-8	EC50	Water Flea	90 mg/l	24 h

# Methyltin trichloride

## Safety Data Sheet

### Section 12. Ecological Information

Component	CAS No	Test	Species	Dose	Exposure
Methyltin trichloride	993-16-8	EC50 Growth Inhibition	Skeletonema costatum (algae)	0.078 mg/l	72 h

#### Persistence and Degradability

- Biodegradability** : No specific data available.
- Bioaccumulative Potential** : No specific data available.
- Mobility in Soil** : No specific data available.
- Other Adverse Effects** : Very toxic for aquatic organisms, may cause long-lasting harmful effects to aquatic life. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

### Section 13. Disposal Considerations

#### Waste Treatment Methods

##### Product

Dispose of in accordance with local, state, and federal regulations. Refer to 40 CFR 260-299 for complete waste disposal regulations. Consult your local, state, or federal agency before disposing of any chemicals.

##### Contaminated Packaging

Empty containers retain product residue (dusts, aerosols and/or vapors) and can be dangerous. Keep product and container away from heat and all ignition sources. Dispose of in the same manner as unused product.

### Section 14. Transport Information

	DOT	IMDG	IATA
UN Number	UN 2921	UN 2921	UN 2921
UN Proper Shipping Name	Corrosive solid, flammable, n.o.s. (Methyltin trichloride)	CORROSIVE SOLID, FLAMMABLE, N.O.S. (Methyltin trichloride)	Corrosive solid, flammable, n.o.s. (Methyltin trichloride)
Transport Hazard Classes	8 (4.1)	8 (4.1)	8 (4.1)
Packing Group	II	II	II
Environmental Hazards	Yes	Yes	Yes
Additional Information	-	EMS No: F-A, S-G	-

# Methyltin trichloride

## Safety Data Sheet

### Section 14. Transport Information

**Special Precautions for User** : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transporting in Bulk According to Annex II of MARPOL 73/78 and the IBC Code** : Not applicable.

### Section 15. Regulatory Information

#### **TSCA (Toxic Substance Control Act):**

This product is listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory).

#### **SARA 302 Components**

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

#### **SARA 313 Components**

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

#### **SARA 311/312 Hazards**

Fire Hazard (Flammable Solid); Acute Health Hazard ((Acute Toxicity – Ingestion, Inhalation, Dermal); Respiratory or Skin Sensitization; Skin Corrosion or Irritation; Serious Eye Damage or Eye Irritation); Chronic Health Hazard (Reproductive Toxicity; Germ Cell Mutagenicity).

#### **Massachusetts Right to Know Components**

No components are subject to Massachusetts Right to Know Act.

#### **Pennsylvania Right to Know Components**

No components are subject to Pennsylvania Right to Know Act.

#### **New Jersey Right to Know Components**

No components are subject to New Jersey Right to Know Act.

#### **California Proposition 65 Components**

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.
