SAFETY DATA SHEET

Section 1. Identification

Product Name: Yttrium(III) chloride anhydrous.

Solid. **Product Type:**

CAS Number: 10361-92-9

Product Number: Y1929

Product Manufacturer: Ereztech LLC

11555 Medlock Bridge Road, Suite 100

Johns Creek, GA 30097

Product Information: (888) 658-1221

In Case of an Emergency: CHEMTREC: 1-800-424-9300 (USA);

> +1 703-527-3887 (International); CCN836180 *** Contact manufacturer for all non-emergency calls.

Section 2. Hazards Identification

Appearance/Odor: White powder, odor not determined.

SKIN CORROSION/IRRITATION; - Category 2, H315 Classification:

SERIOUS EYE DAMAGE/EYE IRRITATION - Category 2A, H319 SPECIFIC ORGAN TOXICITY, SINGLE EXPOSURE; RESPIRATORY

TRACT IRRITATION; - Category 3, H335

GHS Label Elements

Signal Word: WARNING.

H315: Causes skin irritation. **Hazard Statements:**

> H319: Causes serious eye irritation. H335: May cause respiratory irritation.

Hazard Pictograms:

Precautionary Statements

Prevention: P261: Avoid breathing vapors/mists/aerosols.

P264: Wash skin thoroughly after handling.

P271: Use only outdoors or in a well-ventilated area.

Section 2. Hazards Identification

Prevention (cont.): P280: Wear protective gloves/ protective clothing/ eye protection/

face protection.

P302 + P352: IF ON SKIN: Wash with plenty of soap and water. Response:

P304 + P340: IF INHALED: Remove victim to fresh air and keep at

rest in a position comfortable for breathing.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for

several minutes. Remove contact lenses, if present.

Continue rinsing.

P312: Call a POISON CENTER or doctor/physician if you feel

unwell.

P332 + P313: If skin irritation occurs: Get medical

advice/attention.

P337 + P313: If eye irritation persists: Get medical

advice/attention.

P362: Take off contaminated clothing and wash before reuse.

P403 + P233: Store in a well ventilated place. Keep container

tightly closed.

P405: Store locked up.

P501: Dispose of contents/ container to an approved wasted Disposal:

disposal plant.

This material is considered hazardous by the OSHA Hazard OSHA/HCS Status:

Communication Standard (29 CFR 1910.1200).

None identified.

Hazards Not Otherwise Classified (HNOC):

Section 3. Composition/Information on Ingredients

Substances

Storage:

Formula : Cl₃Y : 195.26 **Molecular Weight** : 10361-92-9 CAS-No.

| Ingredient Name | % | CAS Number |
|---------------------------------|-------|------------|
| Yttrium(III) chloride anhydrous | >99.9 | 10361-92-9 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First Aid Measures

Description of Necessary First Aid Measures

General Advice: Move out of dangerous area. Consult a physician. Show this safety data sheet

to the doctor in attendance.

Eye Contact: Immediately flush eyes with plenty of water, occasionally lifting the upper and

lower eyelids. Check for and remove any contact lenses. Continue rinsing. Get

immediate medical attention if eye irritation develops and persists.

Skin Contact: Wash off contaminated skin with soap and plenty of water. Get immediate

medical attention if skin irritation develops and persists or if burns occur.

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for

> breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or

waistband. Call a POISON CENTER or doctor/physician immediately.

Ingestion: Rinse mouth. Do NOT induce vomiting. Remove dentures if any. If vomiting

> occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Call a

physician or POISON CONTROL CENTER immediately.

Most Important Symptoms/Effects, Acute And Delayed Potential Acute Health Effects

Eye Contact: Symptoms may include stinging, tearing, redness, swelling and blurred vision.

Inhalation: May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Causes skin irritation. Symptoms may include burning, itching and redness. **Skin Contact:**

Ingestion: May be expected to be irritating to mucous membranes.

Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

Notes to Physician: Treat symptomatically. **Specific Treatments:** No specific treatment.

Protection of First Responders: No action taken shall be taken involving any personal risk

> without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See Toxicological Information (Section 11)

Section 5. Fire Fighting Measures

General Hazards: None identified.

Suitable Extinguishing Media: Use water spray, alcohol-resistant foam, dry chemical or

carbon dioxide.

Section 5. Fire Fighting Measures

Unsuitable Extinguishing Media: None identified.
Unusual Fire and None identified.

Unusual Fire and Explosion Hazards:

Product of Combustion:

Decomposition products include hydrogen chloride gas and

yttrium oxides.

Protection of Firefighters: Promptly isolate the scene by removing all persons from the

vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Avoid contact with skin or eyes. Avoid breathing dust or

vapors.

Fire-fighters should wear appropriate protection equipment and self-contained breathing apparatus (SCBA) with a full

face-piece operated in a positive pressure mode.

Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

For Non-Emergency Personnel: No action shall be taken involving any personal risk or without

suitable training. Evacuate surrounding areas. Keep

unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid dust and aerosol formation. Avoid inhalation of dusts, aerosols and vapors.

Provide adequate ventilation. Wear respiratory protection. Put

on appropriate personal protective equipment.

For Emergency Responders: If specialized clothing is required to deal with the spillage, take

note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency

personnel".

Environmental Precautions: Do not allow dispersal of spilled material and contact with soil,

waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers,

waterways, soil or air).

Methods for Containment

Small/Large Spill: Contain and collect spill using an inert binding material (e.g.

sand, clay, vermiculite or diatomaceous earth) and place in a dry waste disposal container and seal. Avoid contact with water and the formation/inhalation of dusts and aerosols. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for

waste disposal.

Section 7. Handling and Storage

Product is moisture sensitive; handle under a dry, inert gas. Precautions:

> Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Avoid the formation and inhalation of dusts and aerosols. Keep container tightly sealed. Avoid contact with skin, eyes and clothing. Do not ingest. Avoid prolonged

exposure. Ensure adequate ventilation.

Protective Measures: Put on appropriate personal protective equipment (see Section

> 8). Keep in the original container kept tightly closed when not in use. Empty containers retain product residue and can be

hazardous. Do not reuse container.

Eating, drinking and smoking should be prohibited in areas **General Occupational Hygiene:**

> where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for

additional information on hygiene measures.

Safe Storage Conditions: Product is moisture sensitive; store under an inert gas.

> Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Store refrigerated at 2 – 8 °C. Store in original container protected from direct sunlight in a dry and wellventilated area, away from incompatible materials noted above and food and drink. Keep container tightly closed and sealed

until ready for use. Store locked up.

Exposure Controls/Personal Protection Section 8.

Introductory Remarks:

These recommendations provide general guidance for handling this product. Because work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and conduct regular repairs. Waste from these procedures should

be handled in accordance with Section 13.

Occupational Exposure Limits

| List | Components | CAS-No. | Type | Value |
|-------|----------------------------------|------------|------|----------------|
| ACGIH | Yttrium(III) chloride, anhydrous | 10361-92-9 | TLV | 1 mg/ m³ (TWA) |
| NIOSH | Yttrium(III) chloride, anhydrous | 10361-92-9 | REL | 1 mg/ m³ (TWA) |

Section 8. Exposure Controls/Personal Protection

Engineering Controls:

Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Provide an eyewash/shower station in areas where product is being used.

Environmental Exposure Controls:

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual Protection Measures

Hygiene Measures:

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Remove all soiled and contaminated clothing immediately. Do not inhale dusts or aerosols. Avoid contact with eyes and skin. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/Face Protection:

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to aerosols or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles, faceshield (8-inch minimum). Refer to 29 CFR 1910.133, ANSI Z87.1, or European Standard EN166.

Skin Protection

Hand Protection:

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves. For full contact, wear Neoprene or nitrile rubber gloves.

Section 8. Exposure Controls/Personal Protection

Gloves must be inspected prior to use. Use proper glove Hand Protection (cont.):

> removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good

laboratory practices. Wash and dry hands.

Other Skin Protection: Appropriate footwear and any additional skin protection

measures should be selected based on the task being

performed and the risks involved and should be approved by a

specialist before handling this product.

Where risk assessment shows air-purifying respirators are **Respiratory Protection:**

> appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator

cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as

NIOSH (US) or CEN (EU).

Section 9. Physical and Chemical Properties

Physical State: Solid.

Color: White.

No data available. Odor:

Odor Threshold: No data available. No data available. pH:

721 °C (1330 °F). **Melting Point:**

1507 °C (2745 °F) @ 1013 hPa. **Boiling Point:**

Flash Point: No data available. No data available. Flammability (solid):

2.67 g/cm³. **Density:**

No data available. Water Solubility:

Section 10. Stability and Reactivity

No data available. Reactivity:

This product is stable when stored under a dry, inert **Chemical Stability:**

atmosphere and away from heat.

Section 10. Stability and Reactivity

Nitrogen containing less than 5 ppm each moisture and Chemical Stability (cont.):

air and a temperature range of 2 – 8 °C is recommended.

This product is not sensitive to impact. Product is

hygroscopic.

Conditions to Avoid: Exposure to water/moisture, extremes of temperature

and direct sunlight.

Water, compounds containing active hydrogen (alcohols, **Incompatible Materials:**

acids) and strong oxidizing agents.

Hazardous decomposition products formed under fire **Hazardous Decomposition Products:**

conditions: hydrogen chloride gases and yttrium oxide

fumes. In the event of a fire: see section 5.

Under normal conditions of storage and use noted above, **Possibility of Hazardous Reactions:**

hazardous reactions will not occur. Hazardous reactions

or instability may occur under certain conditions of

storage or use.

Section 11. Toxicological Information

Information on Toxicological Effects

Acute Toxicity

Irritation/Corrosion

Sensitization

Germ Cell Mutagenicity

Carcinogenity

IARC

ACGIH

NTP

OSHA

Reproductive Toxicity

Teratogenicity

: No specific data available.

: Causes skin irritation and serious eye irritation.

: No specific data available.

: No effects known

: No component of this product present at levels greater than 0.1% is identified as probable, possible or

confirmed human carcinogen by IARC.

: No component of this product present at levels greater

than 0.1% is identified as probable, possible or

confirmed human carcinogen by ACGIH.

: No component of this product present at levels greater

than 0.1% is identified as probable, possible or

confirmed human carcinogen by NTP.

: No component of this product present at levels greater

than 0.1% is identified as probable, possible or

confirmed human carcinogen by OSHA.

: This product is not expected to cause reproductive or

developmental effects.

: No specific data available.

Section 11. Toxicological Information

Specific Target Organ Toxicity

(Single Exposure)

: Inhalation – May cause respiratory tract irritation.

Specific Target Organ Toxicity

(Repeated Exposure)

: No specific data available.

Aspiration Hazard

Information on the Likely **Routes of Exposure**

: No specific data available. : No specific data available.

Additional Information

: To the best of our knowledge, the chemical, physical and toxicological properties of this product have not been thoroughly investigated.

Section 12. Ecological Information

Numerical Measures of Toxicity

Toxicity to Fish

Toxicity to Daphnia and Other

Aquatic Invertebrates

Toxicity to Algae

Persistence and Degradability

Biodegradability

Bioaccumulative Potential

Mobility in Soil

Other Adverse Effects

: No specific data available.

: No specific data available.

No specific data available.

: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Section 13. Disposal Considerations

Waste Treatment Methods

Product Dispose of in accordance with local, state, and federal

regulations. Refer to 40 CFR 260-299 for complete waste

disposal regulations. Consult your local, state, or federal agency

before disposing of any chemicals.

Empty containers retain product residue (dusts, aerosols) and **Contaminated Packaging**

can be dangerous. Dispose of as unused product.

Special Precautions for User

: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transporting in Bulk According to Annex II of MARPOL 73/78 and the IBC Code

: Not applicable.

Section 15. Regulatory Information

TSCA (Toxic Substance Control Act):

This product is listed in the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory).

SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards

Acute Health Hazard (Skin corrosion or irritation; Serious eye damage or eye irritation; Specific target organ toxicity, single exposure: respiratory irritation).
