# SAFETY DATA SHEET

### Section 1. Identification

Product Name: Zirconium(IV) tert-butoxide

Product Type: Liquid
CAS Number: 2081-12-1
Product Number: ZR1121

Product Manufacturer: Ereztech LLC

11555 Medlock Bridge Road, Suite 100

Johns Creek, GA 30097

**Product Information:** (888) 658-1221

In Case of an Emergency: CHEMTREC: 1-800-424-9300 (USA);

+1 703-527-3887 (International); CCN836180
\*\*\* Contact manufacturer for all non-emergency calls.

### Section 2. Hazards Identification

Appearance/Odor: Straw to amber colored liquid.

Classification: FLAMMABLE LIQUID – Category 4, H227

SKIN CORROSION/IRRITATION - Category 2, H315

SERIOUS EYE DAMAGE/EYE IRRITATION - Category 2A, H319 SPECIFIC ORGAN TOXICITY, SINGLE EXPOSURE; RESPIRATORY

TRACT IRRITATION - Category 3, H335

**GHS Label Elements** 

**Hazard Pictograms:** 

Signal Word: WARNING.

**Hazard Statements:** H227: Combustible liquid.

H315: Causes skin irritation.

H319: Causes serious eye irritation.H335: May cause respiratory irritation.

**Precautionary Statements** 

Prevention: P210: Keep away from heat/sparks/open flames/hot surfaces. –

No smoking.

Ereztech ZR1121 Page 1 of 13 Revision: 1.00

### Section 2. Hazards Identification

**Prevention (cont.):** P261: Avoid breathing sprays, mists, vapors and gases.

P264: Wash skin thoroughly after handling.

P271: Use only outdoors or in a well-ventilated area.

P280: Wear protective gloves/ protective clothing/ eye protection/

face protection.

**Response:** P302 + P352: IF ON SKIN: Wash with plenty of soap and water.

P304 + P340: IF INHALED: Remove victim to fresh air and keep at

rest in a position comfortable for breathing.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for

several minutes. Remove contact lenses, if present.

Continue rinsing.

P312: Call a POISON CENTER or doctor/physician if you feel

unwell.

P332 + P313: If skin irritation occurs: Get medical

advice/attention.

P337 + P313: If eye irritation persists: Get medical

advice/attention.

P362: Take off contaminated clothing and wash before reuse.

P370 + P378: IN case of fire: Use water spray (fog), CO<sub>2</sub>, dry

chemical or foam for extinction.

P403 + P233 + P235: Store in a well ventilated place. Keep

container tightly closed. Keep cool.

P405: Store locked up.

P501: Dispose of contents/ container to an approved wasted

disposal plant.

OSHA/HCS Status: This material is considered hazardous by the OSHA Hazard

Communication Standard (29 CFR 1910.1200).

None identified.

Hazards Not Otherwise Classified [HNOC]:

### Section 3. Composition/Information on Ingredients

**Substances** 

Storage:

Disposal:

Synonyms : Tetra-tert-butyl zirconate; tetra-tert-butoxyzirconium; ZTB;

zirconium tert-butanolate; zirconium tetra-tert-butoxide;

ZrTB; Zr[OC(Me)3]4.

Molecular Formula:  $C_{16}H_{36}O_4Zr$ Molecular Weight: 383.68 g/molCAS-No.: 2081-12-1

 Ingredient Name
 %
 CAS Number

 Zirconium(IV) tert-butoxide
 ≥ 98
 2081-12-1

### Section 3. Composition/Information on Ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First Aid Measures

### **Description of Necessary First Aid Measures**

**General Advice:** Move out of dangerous area. Call a POISON CENTER or doctor/physician

immediately if symptoms develop or if you feel unwell. Show this safety data

sheet to the doctor in attendance.

**Eye Contact:** Immediately flush eyes with plenty of water, occasionally lifting the upper and

lower eyelids. Check for and remove any contact lenses. Continue rinsing. Seek

medical attention if eye irritation develops and persists.

**Skin Contact:** Take off contaminated clothing and shoes immediately. Wash off contaminated

skin with soap and plenty of water. Seek medical attention if irritation develops

and persists, if symptoms develop or if you feel unwell.

Remove victim to fresh air and keep at rest in a position comfortable for Inhalation:

> breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Call a physician or POISON CONTROL CENTER if symptoms develop

or if you feel unwell.

Ingestion: Rinse mouth. Do NOT induce vomiting. Remove dentures if any. If vomiting

> occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in

recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Call a physician or POISON CONTROL CENTER if symptoms develop or if you feel

unwell.

#### Most Important Symptoms/Effects, Acute and Delayed Potential Acute Health Effects

Symptoms may include stinging, tearing, redness, swelling and blurred vision. **Eye Contact:** 

Product may be irritating to respiratory system. Symptoms may include Inhalation:

coughing, sneezing with phlegm production, sore throat, nausea, headache,

vomiting.

**Skin Contact:** Symptoms may include an itching or burning sensation, reddening, swelling and

blistering with tissue necrosis.

Ingestion: Product may be expected to be irritating to mucous membranes. Symptoms may

include cramping, localized pain, headache, nausea and vomiting.

### Section 4. First Aid Measures

Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

Notes to Physician: Treat symptomatically.

Specific Treatments: No specific treatment.

**Protection of First Responders:** No action taken shall be taken involving any personal risk

without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

**See Toxicological Information (Section 11)** 

### Section 5. Fire Fighting Measures

General Hazards: None identified.

Suitable Extinguishing Media: THE MOST EFFECTIVE FIRE EXTINGUISHING AGENT IS DRY

CHEMICAL POWDER PRESSURIZED WITH NITROGEN. Water spray (fog), vermiculite, sand, dry chemical or carbon dioxide

(CO<sub>2</sub>) may also be used.

Unsuitable Extinguishing Media: DO NOT USE WATER JET as it may spread the fire.

Unusual Fire and Product runoff to sewer may create a fire or explosion hazard. Explosion Hazards: Vapors and gases produced are heavier than air and will

Vapors and gases produced are heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to an ignition

source and flashback.

**Product of Combustion:** Decomposition products include carbon oxides (CO<sub>X</sub>) and

zirconium oxides. Irritating fumes and organic acid vapors may be generated during exposure to elevated temperatures

or open flame.

**Protection of Firefighters:** Promptly isolate the scene by removing all persons from the

vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Avoid contact with skin or eyes. Avoid the formation and

inhalation of sprays, mists, vapors and gases.

Eliminate all local and distant ignition sources. Move containers from fire area if process can be accomplished without risk to firefighters. To reduce the possibility of explosion, use a water spray or fog to reduce direct vapors and to cool unopened containers. Do not cut, grind, drill or weld on or near product containers (even empty) of this

product because an explosion may result.

Fire-fighters should wear appropriate protection equipment and self-contained breathing apparatus (SCBA) with a full

face-piece operated in a positive pressure mode.

### Section 6. Accidental Release Measures

### Personal Precautions, Protective Equipment and Emergency Procedures

For Non-Emergency Personnel: No action shall be taken involving any personal risk or without

suitable training. Evacuate surrounding areas. Keep

unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid the formation

and inhalation of sprays and mists. Provide adequate

ventilation. Wear respiratory protection. Put on appropriate

personal protective equipment.

For Emergency Responders: If specialized clothing is required to deal with the spillage, take

note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For Non-Emergency

Personnel".

**Environmental Precautions:** Do not allow dispersal of spilled material and contact with soil,

waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers,

waterways, soil or air).

**Methods for Containment** 

General: Eliminate all local and distant ignition sources. Move containers

from spill area if safe to do so. Use spark-proof tools and explosion-proof equipment. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may

pose the same hazard as the spilled product.

Small Spill: Contain and collect spillage with non-combustible, dry

absorbent material (e.g. sand, earth, vermiculite or diatomaceous earth) and place in dry, sealed container for

disposal according to local regulations (see Section 13).

Large Spill: Approach release from upwind. Prevent entry into sewers,

water courses, basements or confined areas. Contain and collect spillage with non-combustible, dry absorbent material (e.g. sand, earth, vermiculite or diatomaceous earth) and place

in dry, sealed container for disposal according to local

regulations (see Section 13).

Note: see Section 1 for emergency contact information and

Section 13 for waste disposal.

# Section 7. Handling and Storage

**Precautions:** Product is moisture sensitive; handle under a dry, inert gas.

Nitrogen with less than 5 ppm each of moisture and oxygen is

recommended.

### Section 7. Handling and Storage

Keep away from all sources of ignition – NO SMOKING. Avoid Precautions (cont.):

> formation and inhalation of sprays and mists. Keep container tightly sealed. Avoid contact with skin, eyes and clothing. Do not ingest. Avoid prolonged exposure. Ensure adequate

ventilation.

Put on appropriate personal protective equipment (see Section **Protective Measures:** 

> 8). Keep in the original container kept tightly closed when not in use. Empty containers retain product residue and can be

hazardous. Do not reuse container.

**General Occupational Hygiene:** Eating, drinking and smoking should be prohibited in areas

> where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective

> equipment before entering eating areas. See also Section 8 for

additional information on hygiene measures.

**Safe Storage Conditions:** Product is moisture sensitive; store under an inert gas.

> Nitrogen with less than 5 ppm each of moisture and oxygen is recommended. Store refrigerated at 2 – 8 °C. Keep away from all sources of ignition – NO SMOKING. Store in original container protected from direct sunlight in a dry and wellventilated area, away from incompatible materials noted above and food and drink. Keep container tightly closed and sealed

until ready for use. Store locked up.

#### Section 8. **Exposure Controls/Personal Protection**

**Introductory Remarks:** 

These recommendations provide general guidance for handling this product. Because work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling

procedures, do not overlook the need to clean equipment and conduct regular repairs. Waste from these procedures should

be handled in accordance with Section 13.

### **Occupational Exposure Limits**

List	Components	CAS-No.	Type	Value
ACGIH	Zirconium(IV) tert-butoxide	2081-12-1	TLV	5 mg/ m³ TWA
	, ,			10 mg/ m <sup>3</sup> STEL
NIOSH	Zirconium(IV) tert-butoxide	2081-12-1	IDLH	5 mg/ m³ TWA
	, ,			10 mg/ m³ STEL
				25 mg/ m <sup>3</sup> IDLH

### Section 8. Exposure Controls/Personal Protection

### Occupational Exposure Limits (cont.)

List	Components	CAS-No.	Type	Value
OSHA	Zirconium(IV) tert-butoxide	2081-12-1	PEL	(Vacated) 5 mg/ m <sup>3</sup> TWA* (Vacated) 10 mg/ m <sup>3</sup> STEL*

<sup>\* -</sup> OSHA vacated limits revoked by Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962 (11th Cir., 1992)

#### **Engineering Controls:**

Properly operating explosion-proof, chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Provide an eyewash/shower station.

#### **Environmental Exposure Controls:**

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### **Individual Protection Measures**

**Hygiene Measures:** 

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Remove all soiled and contaminated clothing immediately. Do not inhale sprays or mists. Avoid contact with eyes and skin. Ensure that eyewash stations and safety showers are close to the workstation location.

### **Eye/Face Protection:**

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to sprays or mists. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles, faceshield (8-inch minimum). Refer to 29 CFR 1910.133, ANSI Z87.1, or European Standard EN166.

#### **Skin Protection**

**Hand Protection:** 

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers.

Revision: 1.00 Ereztech ZR1121 Page 7 of 13

### Section 8. Exposure Controls/Personal Protection

**Hand Protection (cont.):** In the case of mixtures, consisting of several substances, the

> protection time of the gloves cannot be accurately estimated. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: Chemical-resistant gloves. For full contact, wear Neoprene or

nitrile rubber gloves.

Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good

laboratory practices. Wash and dry hands.

Other Skin Protection: Appropriate footwear and any additional skin protection

measures should be selected based on the task being

performed and the risks involved and should be approved by a

specialist before handling this product.

**Respiratory Protection:** Where risk assessment shows air-purifying respirators are

appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as

NIOSH (US) or CEN (EU).

#### Section 9. Physical and Chemical Properties

**Physical State:** Liquid.

**Color:** Straw to amber. Odor: No data available. **Odor Threshold:** No data available. No data available. pH: 3 °C (37.4 °F). **Melting Point:** 

70 °C (158 °F) @ 2 mmHg. **Boiling Point:** 85 °C (185 °F) – closed cup. **Flash Point:** 

**Specific Gravity:** 0.985 g/ml @ 25 °C. 0.06 mmHg @ 26 °C. **Vapor Pressure:** 

>1. Relative Vapor Density @ 20 °C:

Product decomposes slowly in contact with water. Water Solubility:

# Section 10. Stability and Reactivity

**Reactivity:** This product reacts slowly with water and compounds

containing active hydrogen such as alcohols and acids.

Chemical Stability: This product is stable when stored under a dry, inert

atmosphere and away from heat. Nitrogen containing less than 5 ppm each moisture and air and a temperature range of  $2-8\,^{\circ}\text{C}$  is recommended. This product is not

sensitive to impact.

Conditions to Avoid: Exposure to water/moisture, sources of ignition (heat,

flames, sparks, electrostatic discharge), extremes of

temperature and direct sunlight.

Incompatible Materials: Water/moisture/alcohols, strong oxidizing agents,

halogens.

Hazardous Decomposition Products: Hazardous decomposition products formed under fire

conditions: irritating fumes, organic acid vapors, carbon oxides and zirconium oxide fumes. In the event of a fire:

see section 5.

Possibility of Hazardous Reactions: Under normal conditions of storage and use noted above,

hazardous reactions will not occur. Hazardous reactions or instability may occur under certain conditions of

storage or use.

### Section 11. Toxicological Information

#### **Information on Toxicological Effects**

Acute Toxicity :

Irritation/Corrosion

: No specific data available.

: No specific data available. Product may cause skin

irritation and serious eye irritation.

**Sensitization** : No specific data available.

Germ Cell Mutagenicity : No effects known.

**Carcinogenity** 

IARC

: No component of this product present at levels greater

than 0.1% is identified as probable, possible or

confirmed human carcinogen by IARC.

**ACGIH** : No component of this product present at levels greater

than 0.1% is identified as probable, possible or

confirmed human carcinogen by ACGIH.

NTP : No component of this product present at levels greater

than 0.1% is identified as probable, possible or

confirmed human carcinogen by NTP.

### Section 11. Toxicological Information

Carcinogenity (cont.)

OSHA

: No component of this product present at levels greater than 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA.

**Reproductive Toxicity** 

: This product is not expected to cause reproductive or developmental effects.

**Teratogenicity** 

Specific Target Organ Toxicity

(Single Exposure)

**Specific Target Organ Toxicity** 

(Repeated Exposure)

**Aspiration Hazard** 

Information on the Likely **Routes of Exposure** 

**Additional Information** 

: No specific data available.

: Inhalation – May cause respiratory tract irritation.

: No specific data available.

: No specific data available.

: No specific data available.

: To the best of our knowledge, the chemical, physical and toxicological properties of this product have not been thoroughly investigated.

## Section 12. Ecological Information

**Numerical Measures of Toxicity** 

**Toxicity to Fish** 

**Toxicity to Daphnia and Other** 

Aquatic Invertebrates

**Toxicity to Algae** 

Persistence and Degradability

**Biodegradability** 

**Bioaccumulative Potential** 

**Mobility in Soil** 

Other Adverse Effects

: No specific data available.

: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

# Section 13. Disposal Considerations

**Waste Treatment Methods** 

**Product** 

Dispose of in accordance with local, state, and federal regulations. Refer to 40 CFR 260-299 for complete waste disposal regulations. Consult your local, state, or federal agency before disposing of any chemicals.

### Section 13. Disposal Considerations

**Contaminated Packaging** 

Empty containers retain product residue (liquid and/or vapor) and can be dangerous. Dispose of as unused product.

### Section 14. Transport Information

	DOT	IMDG	IATA
UN Number	NA 1993	Not regulated	Not regulated
UN Proper Shipping	Combustible liquid,		
Name	n.o.s. (Zirconium tert-		
	butoxide)		
Transport Hazard	3		
Classes			
Packing Group	111		
Environmental Hazards	-		
Additional Information	<u> </u>		

**Special Precautions for User** 

: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transporting in Bulk According to Annex II of MARPOL 73/78 and the IBC Code

: Not applicable.

### Section 15. Regulatory Information

#### TSCA (Toxic Substance Control Act):

This product is not listed on the U.S. Toxic Substances Control Act Chemical Inventory (TSCA Inventory). Use of this product is restricted to research and development only. This product must be used under the supervision of a technically qualified individual as defined by the TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes.

#### **SARA 302 Components**

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

#### **SARA 313 Components**

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

#### SARA 311/312 Hazards

Fire Hazard (Flammable liquid), Acute Health Hazard (Skin corrosion or irritation; Serious eye damage or eye irritation; Specific target organ toxicity, single exposure: respiratory tract irritation;

#### **Massachusetts Right to Know Components**

No components are subject to Massachusetts Right to Know Act.

# Section 15. Regulatory Information

#### Pennsylvania Right to Know Components

No components are subject to Pennsylvania Right to Know Act.

### **New Jersey Right to Know Components**

No components are subject to New Jersey Right to Know Act.

#### California Proposition 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.
